READ—

Letter No. 79, dated 24th July 1901, from the Deputy Commissioner, Chitaldrug district, reporting certain irregularities in both the meetings convened at Hosdurga by the Deputy Amildar, in July and August 1900, in connection with the triennial election of a taluk member for the Dasara Representative Assembly.

No. 3439-46—M. F. 99-93, DATED BANGALORE, 26TH AUGUST 1901.

ORDER THEREON—The Government concur with the Deputy Commissioner in the view that the second election held on the 1st August 1900 at Hosdurga was also irregular in that Rule 2 of Government Notification No. 31572—G. F.

99-93, dated 10th June 1894, insisting on a month's previous notice was violated and a person who was not entitled to vote was allowed to take part in the election.

2. The Deputy Amildar who had to organise the meetings should have acquainted himself with the rules properly, and that he fell into such errors even after his proceedings had been once corrected by the Deputy Commissioner is discreditable to him.

3. These proceedings are therefore set aside. Government direct that a fresh meeting be held and conducted in accordance with the provisions of the Rules laid down in Government Notification No. 21572—G. F. 99-93, dated 10th June 1894; the Deputy Commissioner may depute the Amildar of Holalkere to carry out the work, without again rendering it liable to reversal.

4. The delay of nearly a year in reporting the result of the meeting held in August last year, should have been explained. The displeasure of Government must be communicated to the Deputy Amildar for his unsatisfactory conduct in this matter.

H. V. NANJUNDAYYA,
Secy. to Govt., Gen. & Rev. Depts.

To—The Deputy Commissioner, Chitaldrug District.
The Deputy Commissioners of other Districts.

EDUCATION

Proceedings of the Government of Mysore,

READ—

Letter No. 9939—424, dated 6th May 1901, from the Inspector General of Education in Mysore, submitting the Village School Fund budget estimates for the year 1901-1902, with an Explanatory Memorandum.

Inspector General's Memo on the Village School Fund budget estimates for the official year 1901-1902.

RECEIPTS.

The receipts for 1901-1902 are estimated at Rs. 2,36,706, which is Rs. 1,842 in excess of the estimate for the current year. Of this excess Rs. 1,200 is expected from the Local Examination fees, which amounted to Rs. 10,442-8-0 during the current year as compared with an estimated increase of Rs. 9,600. The contribution from the State Fund is raised by Rs. 222, as there is an increase in the expenditure of the Government Normal School, Mysore, of which half the cost is contributed by the said fund. Private contributions on account of Aided Anglo-Vernacular and Sanskrit Schools in other than taluk stations, are estimated at Rs. 420 more than for the current year, as a few new schools have been enlisted for aid in the current year. The other items of income are estimated at the same figures as for the current year. I would invite the attention of Government to my letter bearing No. 1707—84, dated 6th August 1900, explaining the present situation of the Village School Fund and the pressing need that exists for substantially increasing the Educational share of the revenue from local cess.

EXPENDITURE.

The estimated charges for 1901-1902, amount to Rs. 2,68,451 against Rs. 2,87,431 provided in the current year's budget. The latter amount includes a special provision of Rs. 25,000 sanctioned for the construction and repairs of school-houses for which the normal provision of Rs. 5,000 is entered in the budget estimates for 1901-1902. The charges met from the Village School Fund, exclusive of the additional provision for construction and repairs, have risen from Rs. 2,67,431 to Rs. 2,68,451, the increase in the ordinary charges being Rs. 1,020 which will be accounted for below :—

I. Instruction.—There is no variation under this head.

II. Grants-in-Aid.—A monthly grant of Rs. 20 sanctioned by Government Order No. 6088-9—Ed. 217, dated the 31st October 1900, for the Aided English School at Amritur, a similar grant sanctioned for the Aided English School at Grama by Government Order No. 8327-8—Ed. 282, dated the 19th December 1900, and a grant of Rs. 10 sanctioned for the Aided Sanskrit School at Parasurampura by Government Order No. 9850-1—Ed. 358 of 6th February 1901, account for the increase of Rs. 600.

III. Special Instruction.—By Government Order No. 4909-10—Ed. F. 27-96, dated the 4th October 1900, a sum of Rs. 1,272 has been sanctioned for the employment of two teachers and payment of four scholarships in connection with the Maulvis' classes opened in the Normal School, Mysore. Of this only Rs. 468, the amount required for six months, is provided in the budget for the current year, while the full amount sanctioned is entered in the budget estimates for 1901-1902. There is, on this account, an increase of Rs. 804. The increase on account of the increments earned by the Masters in the School amounts to Rs. 432. A sum of Rs. 516 has been sanctioned by Government Order No. 4911-12—Ed. F. 27-96, dated the 4th October 1900, and provided in the current year's budget, for employing a Mahomedan graduate on Rs. 50 and an Assistant Master on Rs. 20, in place of a temporary teacher of Agriculture and Hygiene on Rs. 15 and an Assistant Master on Rs. 12, respectively. As the pay, however, of the appointment of a teacher of Agriculture and Hygiene was Rs. 25 and not Rs. 15 at which the man temporarily appointed to teach those subjects, was paid, and as a Mahomedan who has passed the F. A. Examination has been permanently appointed for the purpose, on Rs. 30, a sum of Rs. 156 only out of the sanctioned amount of Rs. 516 has been utilized and the excess struck out. There is thus an increase of Rs. (804+432—360) 876 in the charges of the Government Normal School, Mysore. There is an increase of Rs. 24 in the charges of the District Normal School, due to the increment earned by the Head Master of the Kolar Normal School. The total increase under this head is therefore Rs. 900.

IV. General.—The decrease of Rs. 20,000 is due to the additional provision for construction and repairs sanctioned for this year being excluded from the estimates for 1901-1902. By Order No. 4907-8—Ed. F. 20-96, dated 4th October 1900, a provision of Rs. 25,000 was sanctioned for Village School buildings, and Government promised a further grant, if needed. Twenty-six new buildings have been taken in hand this year. As most of these will be in an incomplete state on 30th June 1901 and some more new buildings for which

villagers have paid Rs. 100 or more, have to be taken up next year, it is anticipated that a grant of not less than Rs. 40,000 will be required for buildings in 1901-1902. A separate reference will be made on this subject.

V. Local Examination.—A sum of Rs. 480 sanctioned by Government Order No. 11763-4—Ed. F. 29-96, dated the 5th March 1901, in addition to Rs. 7,940 provided in the current year's budget, to meet the charges of the Local Examinations of June and December 1900, raises the sanctioned expenditure for the current year under this head from Rs. 10,280 to Rs. 10,760. The usual provision of Rs. 10,280 is made for 1901-1902.

No. 2066-7—Ed. F. 3-96, dated Bangalore, 2nd August 1901.

Order thereon—In the Village School Fund budget for 1901-1902, as submitted by the Inspector General of Education, with the letter read above, the Receipts and Expenditure are estimated as follows:—

Particulars.	Sanctioned estimates for 1900-1901.	Proposed estimates for 1901-1902.	Difference.	
			Decrease.	Increase.
	Rs.	Rs.	Rs.	Rs
Receipts	2,34,864	2,36,706	.....	1,842
Expenditure	*2,87,431	2,68,451	18,980	.....

* The figures Rs. 2,87,431 under expenditure for the past year include a sum of Rs. 480 sanctioned in Government Order No. 11763-4—Ed. F. 29-96, dated 5th March 1901, to supplement the usual provision of Rs. 7,940 for "Local Examination contingencies and Fees to Examiners."

Receipts.

2. The small increase of Rs. 222 under the head "VI, Contribution from the State Funds" and of Rs. 420 under the head "VII, Private contribution" towards the cost of Anglo-Vernacular and Sanskrit Schools in places other than taluk stations, are of a fixed character and are therefore accepted, as also the increase of Rs. 1,200 anticipated from Examination fees, head III. The other items of income, which are estimated at the same figures as those for the past year, will also stand.

3. The Inspector General is requested to include, on the receipts side of the Village School Fund budget estimates for the next year, the moiety payable from the Provincial Funds towards the additional charges sanctioned in Government Order No. 1926-27—Ed. 59, dated 30th July 1901, for the Government Normal School at Mysore.

Expenditure.

The amount estimated by the Inspector General under "Expenditure" is Rs. 2,68,451. This provides for the ordinary charges and will accordingly be retained.

To the above a sum of Rs. 1,617 has been added to provide for the charges involved in certain proposals separately received from the Inspector General and sanctioned by Government, composed of the following items:—

Rs. 1,200 the provision required on account of 50 scholarships of the value of Rs. 2 each per mensem open to all classes in the IV and V Classes of Vernacular Schools (*vide* Government Order No. 1922-23—Ed. 598, dated 30th July 1901).

Rs. 108 the provision required on account of the additional charges sanctioned for the Government Normal School, Mysore (*vide* Government Order No. 1926-27—Ed. 59, dated 30th July 1901).

Rs. 36 the provision required on account of the additional charges sanctioned for the Mysore Local Examination office (*vide* Government Order No. 1924-25—Ed. 60, dated 30th July 1901).

Rs. 273 the provision required on account of house-rent and contingent allowances sanctioned for certain schools (*vide* Government Order No. 2049-50—Ed. F. 50-96, dated 1st August 1901).

Total .. 1,617

Thus the total amount of expenditure sanctioned for the year 1901-1902 is Rs. 2,70,068, which exceeds the estimated receipts by Rs. 33,362. This will be met out of the surplus at the credit of the Village School Fund.

4. The separate reference promised by the Inspector General regarding the requirements of Village School buildings during the current official year, will be awaited and should be expedited in view to timely orders being passed thereon. The usual provision of Rs. 5,000 entered by the Inspector General in the estimates submitted by him, has been passed for the present.

5. With the foregoing remarks the Village School Fund budget estimates for 1901-1902 are sanctioned. The detailed statements are given as appendices and an abstract thereof is given below :—

Letter No. 10945—190, dated 3rd June 1901, from the Inspector General of Education in Mysore.

I have the honor to submit a list of schools maintained from the Village School Fund and to request that Government may be pleased to sanction the house-rent and contingent allowance at the rates specified for the several schools mentioned in the list. The extra provision requiring the sanction of Government is Rs. 51 a year for contingent allowance and Rs. 222 for house-rent, which I request may be provided in the Village School Fund budget for 1901-1902.

No. 2049-50—ED. F. 50-95, DATED BANGALORE, 1ST AUGUST 1901.

ORDER THEREON—The house-rent and contingent allowance entered against each of the schools mentioned in the list appended are approved and the total amount of Rs. 273 required, *viz.*, (Rs. 51 on account of contingent allowances and Rs. 222 on account of house-rent) is accordingly sanctioned, the sum being included in the Village School Fund budget estimates for 1901-1902.

2. The amount of Rs. 222 sanctioned for house-rents is for meeting the charges that will be incurred from the 1st July 1901. The amount that may be required in excess of this for making payments of rents to houses occupied during the last year will be met from the general savings in the Village School Fund budget for 1901-1902.

3. In the case of Village Schools, especially those for boys, to be newly opened in future, the villagers concerned should themselves be required to provide the necessary accommodation, and grants on account of house-rent should be discouraged as far as possible.

Letter No. 645—54, dated the 26th July 1901, from the Inspector General of Police in Mysore, to the Secretary to the Government of Mysore, General and Revenue Departments.

I beg to forward herewith a copy of letter No. 24 of the 23rd July 1901, from the Deputy Commissioner of the Kolar district, recommending the payment of a reward of Rs. 125 to the villagers of Somasettihalli and Hoskote in the Goribidnur taluk, for having captured some dacoits in a jungle on the information given by one Angajala Narasinma, who first saw them there when he had been thither to hunt. The villagers very promptly repaired to the jungle, dexterously surrounded the dacoits and seized them notwithstanding they stoned them and showed fight. The manner in which they did all this has been detailed in the diary of the Police Assistant Superintendent of the Kolar district for the week ended the 16th February 1901, and it is herewith submitted for perusal. I support the recommendation of the Deputy Commissioner and suggest that the amount (Rs. 125) be paid out of the sum of Rs. 300 provided in the current year's Police budget for the recognition of good service. The issue of a sanad to the villagers (collectively) has also been recommended, but as difficulty may arise as to whom it should be given, I have not pressed that point.

(ENCLOSURES.)

Letter No. 24, dated the 23rd July 1901, from the Deputy Commissioner of the Kolar district, to the Inspector General of Police in Mysore.

I have the honor to forward herewith the diary of the Assistant Superintendent of Police for the week ending 16th February 1901, and to state that four marginally noted dacoities were committed in the Chikballapur and Goribidnur taluks of this district and they were followed up by a number of other dacoities in the Maddagiri and Koratagere taluks of the Tumkur district at short intervals commencing from 17th December 1900. A repetition of the series of dacoities that took place in the Shimoga district in the year 1896-97 was apprehended and the public peace and safety to life and property on the borders of the two districts were so much unsettled for a time that strong measures had to be contemplated to put down the recurrence of such offences. The Assistant Superintendent of Police had therefore to encourage the villagers about the locality where these dacoities occurred, by offering a liberal reward and due recognition of the services of those who could help the executive in tracing the gang of the dacoits that committed these raids. In pursuance of the instructions and encouragement given by the Assistant Superintendent, the surrounding villagers were on the alert and watching the movements of criminal gangs, and especially the villagers of Somasettihalli in the Goribidnur taluk had the credit of arresting the marginally noted dacoits in the manner explained in the enclosed diary of the Assistant Superintendent. I have proposed in the said diary a reward of Rs. 100 to the villagers of Somasettihalli for their good and meritorious service in arresting the dacoits, and the then Inspector General of Police, Mr. Rangasamaiengar, has not only favorably endorsed my suggestions but has also expressed his opinion in favor of granting a larger reward after the dacoits were prosecuted. Upon information obtained from the arrested dacoits, one Naga was arrested in Penukonda, who however made good his escape while in custody of the British Police, and another by name Sunka *alias* Timma was arrested in the Bagepalli taluk. These dacoits as also the property seized from them have, moreover, been identified by several of the complainants in the dacoities of the Tumkur district. Of the four accused arrested, the first, *viz.*, Ganga *alias* Basiga died in the Jail at Goribidnur and the other three named in the margin were placed before the Sub-Division Magistrate at Chikballapur and committed to the Sessions, in the three cases of the Goribidnur taluk, the first case of Chikballaur still pending with the Police. These three cases came off before the Chief Court Sessions, which held its sittings from the 1st instant, and all the

three accused were convicted and sentenced to three years' rigorous imprisonment in the 2nd of the above marginally noted cases, and the 1st two to four years' rigorous imprisonment in the 3rd case, and the 4th case was withdrawn by the Public Prosecutor under Section 240 of the Criminal Procedure Code.

I may mention here that after the arrest of these accused, the dacoities ceased, and now that their prosecution has ended in the conviction of all the accused, the time has come to reward the villagers in the way they were encouraged at the outset and for which they are long in expectation, so that it may serve as an incentive to others to readily help the executive on such occasions. I would therefore request that you will kindly obtain sanction for a reward of Rs. 100 to the villagers of Somasettihalli and also sanction a reward of Rs. 25 to the villagers of Hoskote for their ready response at the call for help by their neighbouring villagers, and also a sannad from Government in recognition of the valuable services rendered by the former. After the reward is sanctioned, I shall cause a fair distribution of the sanctioned amount to be made among the villagers after full enquiry as to the nature of services rendered by each, allowing to Angajala Narasimha and Kada a larger portion, to the former for the timely intimation he gave to the villagers of the presence of the dacoits in the jungle near the village and the dexterous mode in which he led the men to the place where he saw the accused in the jungle, and to the latter for his presence of mind in firing at the dacoits, one of whom was wounded by the shot.

Diary of the Assistant Superintendent of Police, Kolar district, for the week ending 16th February 1901.

Having received a telegram from the Amildar of Goribidnur that three of the gang dacoits were found near Somasettihalli, I came to Thondebhavi in the night.

February 15th, Thondebhavi.—In my diary for the week ending 29th December 1900, I had reported that patel Narsegauda, talari Narasimha and Angajala Mutha of Somasettihalli, Goribidnur taluk, were waylaid on the jungle-path between Machenahalli and Sonnagunahalli (about four miles distant from Somasettihalli above referred to), on the evening of the 22nd December 1900, by a gang of seven robbers, and robbed of their property noted in the margin all valued at Rs. 11-9-0.

Dhupati and cash Rs. 1-8 0.

The complainants gave a detailed description of the offenders during the investigation, and steps were taken to trace out the dacoits.

I visited Somasettihalli and the frontier on the 5th instant and instructed the chief men including some of the shikaris to watch the movements of the dacoits in these parts, and promised a substantial reward for any good services that may be rendered. A copy of the instructions is enclosed. Visited Bevanahalli, Taridal, Ooviganahalli, Somasettihalli and Naduvanahalli jungles and ascertained the following facts regarding the arrest of the three dacoits referred to in the Goribidnur Amildar's telegram. On the 13th instant (morning) one Angajala Narasimha of Somasettihalli went on a shikari to catch some rabbits and wild rats in the jungle between his village and Naduvanhalli known as Jularibande dinne. At about noon while he was examining a rabbit-hole in a dip, he observed in a jungle higher up some seven or eight Korchars lurking there armed with axes, hatchet, &c. As they appeared to him to be dacoits, he very quietly returned to his village by a secret path and gave intimation to talari Narasimha and the villagers. The former proceeded to Sonnaganahalli and Machenahalli to obtain help, while the villagers of Somasettihalli (30 in number) headed by the patel and one Chikdasegauda and armed with clubs, hatchets and a loaded gun started at once in the direction pointed out by Angajala Narasimha above referred to, saw the dacoits in a thick jungle and surrounded them on all sides. The villagers having encountered the dacoits were freely pelted with large stones and roughly handled by the latter at the outset. The villagers (chiefly Chikdasegauda) however proved themselves equal to the occasion, and one of them by name Kada fired at one of the dacoits (Ganga), who immediately fell down, receiving severe injury on the right shoulder where the bullet hit and grazed off. The villagers (Putta, Kama, Narsa and Siba) beat two other dacoits with clubs causing slight injuries, and secured them.

The 1st accused Ganga is rather weak and the other two* have some contusions, and they have been sent to the Medical Officer for treatment. The adjoining villagers not having arrived in time, the other dacoits, four or five, managed to escape. I may here state that one Nanja, ukkad watcher of Hoskote, also saw some suspicious characters moving about the jungle at some distance from the ukkad on the morning of the 13th instant, immediately went and informed the patel, who with the villagers came at once to the jungle and searched for the dacoits in vain.

*Ganga *alias* Malla and Ellaga.

The marginally noted articles were found in the possession of the three dacoits above referred to. Patel Narsegauda, complainant in the Machenahalli dacoity case above referred to, recognizes all the three accused as having been his assailants in the dacoity case of the 22nd December 1900, and also identifies the silver sarige found on the person of the 1st accused, as his property. Talari Narasimha and Angajala Mutta (the other complainants in the dacoity case) corroborate the statement of Narsegauda and the talari (Narasimha) identifies the dhupati (with blood stains) as his property. There is other evidence to prove that the sarige and the dhupati above referred to, belong to the complainants. The accused, who belong to the gang of Korchars, gave different names during the enquiry and offered no explanation whatever as to their presence in the jungle on the 13th instant, where there is no recognized foot-path. It is stated that the other members of this gang are now put up in huts near Kodikonda. I have sent a party to make secret enquiries at that place with the co-operation of the British Police. Steps are being taken to trace out the runaway dacoits and also to have the accused now in custody, shown to the complainants in the other dacoity cases. The villagers of Somasettihalli on receipt of the intimation at once mustered themselves, very cautiously marched to the jungle, ably resisted the dacoits and pluckily caught them with the stolen property and marched them off to the village chavadi, when the ukkad constable of Koratagere sub-taluk and another man are reported to have joined the villagers within a few yards from the village, after the whole affair was over.. So the credit of successfully capturing these dacoits is entirely due to the villagers of Somasettihalli and to the informant Angajala Narasimha and not to any members of the regular Police. In my humble opinion, our main strength and prospective success in such matters depend upon the just appreciation and acknowledgment of the services done by the villagers, and without their co-operation and timely help nothing could be successfully attempted. From the D. O. letter of Mr. L. Krishna Rao, Assistant Superintendent of Tumkur, it appears that some ukkad constable of the Koratagere sub-taluk and dafadars seem to claim credit for having arrested these dacoits, but the Goribidnur Amildar's report states that the success is mainly due to the villagers of Somasettihalli.

From personal enquiries made on the spot, I agree with the Amildar and beg that a substantial reward may be sanctioned for the villagers of Somasettihalli as an example and incentive to other villagers.

February 16th, Thondebhavi.—The Amildar-Magistrate of Dodballapur has granted ten days' remand for detaining the three accused* in the Police custody.

*In the dacoity case.

As desired by Mr. L. Krishna Rao, I am going to Byahapur to take his opinion about the dacoity cases.

ORDER THEREON—The grant of the reward proposed is sanctioned, the charge being debited to the head "Reward for good service" in the current year's Police budget.

2. The Deputy Commissioner will have all the villagers before him and distribute the reward in as public a manner as is necessary to impress the event favorably on them and on others.

Letter No. 637—50, dated Bangalore, 26th July 1901, from the Inspector General of Police in Mysore, to the Secretary to the Government of Mysore, General and Revenue Departments.

I beg to submit the following review on the working of the "Coffee Stealing Prevention Act" for the season ended the 31st March 1901.

(2) The following statement shows the number of cases reported under the Coffee Stealing Prevention Act and their disposal :—

Taluks.	Cases.					Persons.				Fines.	Remarks.

Total for 1899-1900 ...	8	5	1	...	2	8	5	1	2	20	

(3) It will be seen from the above that four cases were reported during the year against eight during the previous year. All the four cases ended in conviction against five during the past year. Seven persons were prosecuted during the year and all of them were convicted.

(4) No case was reported in the Hassan district under the provisions of the Coffee Stealing Prevention Act during the year. The two cases that were pending with the Magistrates at the end of the previous year ended in conviction during the year, and both the persons concerned in them were fined a rupee each. The Deputy Commissioner attributes the absence of cases under this Act to the depression in coffee trade; but there were 20 cases of ordinary thefts of coffee tried under the Penal Code.

(5) The amount of fine inflicted on the persons convicted was Rs. 358 during the year under report against Rs. 20 during the previous year. This increase is reported to be due to the fact that the three persons concerned in a case in the Mudgere taluk were fined Rs. 100 each.

(6) The Deputy Commissioner of the Kadur district reports that from December 1900 to March 1901, 14 constables were lent to private individuals on the usual conditions of payment and that this was chiefly in the taluks of Koppa, Mudgere and Chikmagalur. He further reports that a few men were, as usual, detailed in each taluk for special duty, with instructions to visit coffee estates, markets and petty shops, and that their constant itineration produced the desired effect on dishonest coolies and receivers of stolen coffee. It would further appear that the account books kept by dealers in coffee were examined in some cases.

(7) Inspector R. Shama Rao of the Koppa taluk was given a reward of Rs. 5 by the Amildar-Magistrate of the Koppa taluk for the good work done by him in case No. 9—33, and dafadar Venkatasubba Rao and constable Sheik Hussain No. 222 of the same taluk were given two good marks each by the Superintendent of Police for their good work in case No. 7—31.

LEGISLATIVE

Proceedings of the Government of Mysore.

READ THE FOLLOWING PAPERS —

(1) Letter No. 7577—Legis. 59, dated the 30th November 1900, from the Officiating Dewan of Mysore, to the Hon'ble the Resident in Mysore —

"I have the honor to forward a copy of a Draft Regulation to consolidate and amend the Excise Law of Mysore, and to request that you will kindly obtain the early approval of the Government of India to its being passed into law.

"2. The Excise Law, at present in force in Mysore, is Act XXII of 1881 as introduced by Regulation III of 1885. Its provisions have been found defective and inconvenient in several respects, of which the most important are referred to below :—

(1) Terms such as 'Liquor,' 'Import,' 'Export,' 'Transport,' 'Sale,' 'Manufacture,' 'Rectification,' 'Excise Revenue,' and 'Excise Officer,' which represent fundamental ideas of the Excise administration, have been left undefined.

(2) An Excise Commissioner has, since several years, been appointed to be in charge of the entire executive administration of the Department. But he finds no place among the Officers contemplated by the Act.

(3) The existing law does not allow of adequate control being exercised over imports and exports of liquors (other than spirits) and intoxicating drugs, in regard to which, moreover, doubts exist as to whether any duty can be levied or permit demanded. This has operated to the prejudice of the Government revenue and of the interests of Mysore shop-keepers in frontier tracts.

(4) The Act does not enable Government to establish bonded warehouses or depots, or to dispose of the exclusive privilege of manufacture, wholesale or retail, vend, &c., of country liquor and intoxicating drugs.

(5) The Act is also defective in provisions necessary for the successful working of the tree-tax system, which has now been definitely introduced into the State ; also as regards the levy of duties, grant of licenses, &c.

(6) The Government has not been empowered to prescribe the measures, scales and weights, and testing instruments, that may be used with regard to liquors and drugs.

(7) The procedure in respect of the investigation of cases, conduct of searches, taking of bail from arrested persons, summoning of witnesses, &c., is also defective ; and as regards searches especially, the condition that they shall always be made in the presence of Police Officers in receipt of a salary of not less than Rs. 10 has been found highly inconvenient and productive of delay and, sometimes, of miscarriages of justice. Also in cases of illicit distillation, where the liquor may have been destroyed before the arrival of the Police, and only the stills, empty bottles, and other apparatus for the manufacture of liquor may have been left, it has not been found possible to obtain convictions, as the Act does not consider the mere possession of the apparatus an offence. Similar difficulties are reported to exist with regard to the apprehension of persons who illicitly make incisions in trees for drawing toddy but stop short of actually drawing it.

(8) The nature of the assistance to be rendered by the Police to Excise officers has not been specified.

"3. With defects so grave to remedy, it has been thought proper to adopt the Madas Abkari Act, I of 1886, in lieu of the existing law, as the former, with necessary modifications, will fully meet the requirements of the Excise administration of this State.

"4. In the process of adaptation certain alterations have been found necessary. But most of these are merely verbal or relate to nomenclature and require no explanation. The others are as follows:—

Section 2.—The reason for the addition of the words 'and leases' in the first proviso is that licenses have not been invariably given in all cases of leases under the existing law.

Section 3, Clause (7).—Bagani (bastard sago), being an important variety of the palm tree from which toddy is now drawn in this country, has been specified in the definition.

Section 3, Clause (11).—The definition of country liquor, given in the Madras Act, is inapplicable to Mysore. The one substituted is in accordance with the definition given in Rule XXXIV of Government Notification No. 371—Ex., dated the 12th March 1897. (In the Bombay Abkari Act, V of 1878, country liquor has been defined so as to 'include all liquor produced or manufactured in India.')

Section 3, Clauses (15) and (16).—The definitions of 'import' and 'export' have been altered so as to suit an inland country like Mysore.

Section 3, Clause (17).—The addition made to the definition of 'transport' is intended to remove doubt which might arise in cases where the intervening area is not wholly Mysore territory.

Section 4, Clause (a).—This clause has been slightly altered in accordance with existing conditions, under which an Excise Commissioner with the control, both of the administration of the Excise Department and of the collection of the Excise revenue, has been already definitely appointed.

Sections 6, 7 and 8.—The references to duties of customs on imported goods have been omitted, and the rest of these sections retained.

Section 12.—A clause has been added to this section similar to the last clause of Section 11, extending the benefit of a license to servants, &c., employed by, and acting on behalf of, the licensee. The addition is in accordance with a decision of the Madras High Court, contained in their Proceedings of the 10th December 1886, in a case which had arisen under Section 12 of the Madras Abkari Act.

Section 18, Clause (b).—Duty on intoxicating drugs is now levied according to the quantity sold by wholesale Hence the addition to clause (*b*).

Section 27.—This section has been added to, so as to make it compulsory for a vendor of intoxicating drugs to supply himself with the prescribed scales and weights.

Section 28.—The word 'foregoing' has been omitted so as to make the section more general.

Section 29, Clause (a).—Toddy is also used in the manufacture of jaggory, and power has been taken to regulate its supply for such purpose.

Section 29, Clause (e).—The addition to this clause follows from the addition made to Section 27.

Section 29, Clause (f).—This has been added to so as to provide for the existing practice under which Government fixes the retail price of liquor and the wholesale and retail prices of intoxicating drugs. Clause (*ff*) gives power to Government to define when liquor or drugs shall be deemed to be sold retail or wholesale.

Section 29, Clause (j).—Compare Section 55, clause (*c*). The addition is a necessary one.

Section 31.—As the salary of an Excise Sub-Inspector in Mysore ranges only from Rs. 7 to Rs. 10 a month, the minimum rank of an Excise officer empowered to act under this section has been fixed at that of Inspector whose minimum pay is Rs. 15.

Sections 34, 35, 37 and 39.—Officers of the Forest Department have been included among those to whom powers and duties in respect of Excise offences have been assigned under these sections.

Section 39.—The word 'Zamindars' has been omitted; and in order to remove doubts, the words 'inamdars, kayamguttadars' have been inserted, though the expression 'proprietors, tenants, under-tenants and cultivators' is wide enough to include holders of alienated lands.

Sections 55 and 58.—In order to provide against inadequate fines, it has been considered desirable to specify the minimum amount of fine that may be inflicted in the cases mentioned in the provisos to those sections.

Section 63.—The word 'wilful' has been omitted in the phrase 'such wilful act or omission' as its insertion therein in the corresponding Madras section seems to have been due to an oversight.

Section 72.—In this section the words 'Government of Mysore' have not been substituted for 'Secretary of State for India in Council,' as under the law of Mysore no action lies against the Government."

(2) Correspondence ending with letter No. 3674, dated the 26th July 1901, from the First Assistant to the Resident in Mysore, stating that the Government of India have no objection to the Draft Regulation to amend the Excise Law of Mysore.

No. 2304—Legis. 8, dated Bangalore, 6th August 1901.

Order thereon—Ordered that the Draft Regulation to consolidate and amend the Excise Law of Mysore, which received the assent of Her Highness the Maharani-Regent on the 5th day of August 1901, be promulgated.

RECEIPTS.

2. *I Octroi.*—The increase under Cloth in the budget of Chikmagalur is based on the actuals of 1899-1900, but that in Mudgere is not supported by the actual collections of 1899-1900 and the probable collections of 1900-1901, which are given as Rs. 254 and Rs. 470, respectively. The estimate will be reduced from Rs. 600 to Rs. 400, which is about the average of the collections of two years.

3. *II. House Tax.*—In the budget of Sringeri for 1900-1901, an increased estimate of Rs. 1,000 is entered, but when the tax was actually revised, the revenue from this source came down to Rs. 800. This accounts for the decrease in the estimate under this head, which is approved.

4. *VII. Mohatarfa.*—The decrease under the several sub-heads in Chikmagalur and under Carts in Tarikere is based on the jamabandi figures. The estimate is passed.

5. *X. Miscellaneous.*—The estimate for Rs. 10,000 entered under (*a*) Loans in the budget of Sringeri is the amount of loan sanctioned to the Municipality in Proceedings No. 10928-30—L. F. 32-99 and No. 12658-59—L. F. 49-1900, respectively, dated 2nd April 1900 and 27th March 1901, but the source from which the revenue under "(*e*) Land Revenue" is expected in Birur, Kadur, Ajjampur and Sakrepatna Municipalities, should be explained. Pending information, the item will be disallowed.

EXPENDITURE.

6. *II. Head Office.*—The budget of Sringeri provides under this head an increase of Rs. 12 on account of the District office contingencies. The following increases are provided in the other budgets :—

	1900-1901.	1901-1902.
	Rs.	Rs.
1. Tarikere—		
Mutsaddi on Rs. 15	120	120
Contingencies	...	12
2. Ajjampur—		
Mutsaddi on Rs. 15	...	60
Contingencies	...	12
3. Birur—

4. Kadur—

5. Sakrepatna—

6. Yedahalli—		
Mutsaddi	...	120
7. Mudgere—		
Mutsaddi	...	120
8. Chikmagalur—		
Contingency	...	60

The increase in Yedahalli is only nominal, as the pay of the mutsaddi hitherto shown under III. Collection and IV. Conservancy has now been transferred to this head. The increased provisions made in the budgets of Tarikere, Ajjampur, Birur, Kadur, Sakrepatna and Mudgere are in accordance with sanctions already accorded. The provisions made for these as also for contingent allowances of the Vice-President's office at Chikmagalur, are approved, with the observation that the necessity for the increase of Rs. 12 on account of the District office contingencies in the Sringeri Municipal budget should have been explained.

1. No. 12892-3—L. F. 19-1901, dated 13th March 1901.
2. No. 13617-8—L. F. 19-1901, dated 13th April 1901.
3. No. 13619-50—19-1901, dated 13th April 1901.
4. No. 11007-8—L. F. 59-99, dated 5th April 1900.

7. *III. Collection (a) Octroi.*—The decrease under this head in the budget of Chikmagalur is due to the Board's proposal to reduce the contingencies so as to provide for increased contingent charges of the Vice-President's office, and that in the budget of Tarikere to the proposed transfer of the Overseer's pay to the head IV. Conservancy on the ground of his looking after the work of that establishment. The provision is passed.

8. *IV. Conservancy (a) Establishment.*—The variations proposed under this head are noted below:—

	1900-1901. Rs.	1901-1902. Rs.
1. Tarikere—		
Overseer	...	144
2 Additional sweepers at Rs. 5 each ...	..	120
2. Birur—		
Peon	72	84
Purchase of wheel-barrows	15	16
3. Yedahalli—		
Mutsaddi	108	...
4. Sakrepatna—		
Purchase of wheel-barrows, &c. ...	22	20
5. Sringeri—		
3 Sweepers at Rs. 5	180	3 at Rs. 4 : 144
5 Do at Rs. 4	240	7 at Rs. 3 : 252
Purchase of wheel-barrows	...	20
Contingency	20	...

The decrease in Yedahalli and increase in Tarikere are the result of the transfers referred to in paras 6 and 7 *supra*, and the variations in fixed charges under items 1 and 2 have already been sanctioned by Government in their Proceedings noted in the margin. The revision proposed in the number and rate of salaries of sweepers in Sringeri is now sanctioned and the other variations under this head, which are small, are also approved.

No. 7405-6—L. F. 59-99, dated 27th November 1900.
No. 12802-3—L. F. 19-1901, dated 30th March 1901.

9. *VIII. Public Works (a) Supervision.*—No provisions have been made in the budgets of Yedahalli and Sringeri for the supervision of works to be executed in them. The omission requires explanation, pending which, the estimates will stand.

10. *IX. Charitable Grants.*—Provisions have been made in the Chikmagalur Municipal budget for the increased rate of pay of the compounder attached to the Basavanhalli Dispensary sanctioned in Proceedings No. 6207-8—L. F. 59-99, dated 5th November 1900, and for increased rate of charge allowance to the Hospital Assistant attached to the Branch Dispensary at Basavanhalli. Pending final orders on the President's letter No. 532, dated the 8th March 1901, the estimate is allowed to stand. But the increase proposed for the taluk vaccinator will be struck out as Government have already declined to sanction it. (*Vide* Proceedings No. 14240—L. F. 172-93, dated 24th April 1901.)

11. *XI. Miscellaneous (a) Repayment of Loans.*—The provisions made under this head in the budgets of Chikmagalur, Kadur and Sringeri, which are the same as those sanctioned for 1900-1901, are allowed, subject to the submission by the Comptroller of a list showing the amount of loans advanced to the several Municipalities in the State, and the sums payable by them during 1901-1902, on account of interest and principal.

The provision made for the increased rate of pay to the guard for the drinking-water pond at Birur is passed.

12. According to details given in Budget Statement No. 1, the correct closing balance of Kadur and the total income of Sringeri amount to Rs. 2,741 and Rs. 13,760, respectively, and not Rs. 2,739 and Rs. 13,750 as erroneously entered in the statements. The necessary corrections have been made in this office.

13. The other items call for no special remarks and are passed.

14. The budget estimates of receipts and expenditure of the several Municipalities in the Kadur District for 1901-1902 are sanctioned. The particulars are given in the statements hereto appended and an abstract thereof is given hereunder :—

Letter No. 742, dated 12th May 1901, from the President, Municipal Commission, Mysore City, submitting the budget estimates of the City Municipality for 1901-1902 together with an extract from the proceedings of the Municipal Board approving of the same.

No. 2825-39—L. F. 12-1901, DATED BANGALORE, 14TH AUGUST 1901.

ORDER THEREON—The estimated receipts and expenditure of the Municipality for 1901-1902, as compared with those of the year 1900-1901, are given in the following statement :—

Receipts.				Expenditure			
Budget Head.	Items.	As sanctioned for 1900-1901	As estimated for 1901-1902.	Budget Head.	Items.	As estimated for 1900-1901.	As proposed for 1901-1902.

	Total ...	1,35,870	1,14,250		Total ...	1,64,157	1,41,260

It is observed that Statement No. I has not been properly prepared in accordance with the instructions contained in Official Memo No. 6861-70—157, dated 8th December 1889, the entries required by the form laid down not being accurately made. The corrections necessary have been made here, but in future better attention should be paid to the preparation of such statements.

3. *I. Octroi*—Increases expected under "Timber" and "Cloth" are supported by the actuals of 1899-1900. The estimates are allowed. But as the proposed estimate under jaggory (Rs. 4,500) which is the same as that sanctioned for 1900-1901 is not justified by the collections of 1899-1900 and of the first half of 1900-1901, which are only Rs. 3,814 and Rs. 1,935, respectively, it will be reduced to Rs. 4,000.

4. *II. House Tax.*—Owing to the revision of house tax recently ordered, an increase of Rs. 3,000 over the sanctioned estimate for 1900-1901 is expected. The estimated is passed.

It is observed that Statement No. I has not been properly prepared in accordance with the instructions contained in Official Memo No. 6861-70—157, dated 8th December 1889, the entries required by the form laid down not being accurately made. The corrections necessary have been made here, but in future better attention should be paid to the preparation of such statements.

3. *I. Octroi*—Increases expected under "Timber" and "Cloth" are supported by the actuals of 1899-1900. The estimates are allowed. But as the proposed estimate under jaggory (Rs. 4,500) which is the same as that sanctioned for 1900-1901 is not justified by the collections of 1899-1900 and of the first half of 1900-1901, which are only Rs. 3,814 and Rs. 1,935, respectively, it will be reduced to Rs. 4,000.

4. *II. House Tax.*—Owing to the revision of house tax recently ordered, an increase of Rs. 3,000 over the sanctioned estimate for 1900-1901 is expected. The estimated is passed.

5. *IV. Carriage Tax.*—The decrease under this head has not been explained. As the actuals of 1899-1900 were Rs. 760 and no special reasons exist for anticipating any decrease under this head, the sanctioned estimate for 1900-1901 will be repeated in the present budget.

6. *X. Miscellaneous.*—The sub-committee anticipates an increase of Rs. 2,000 from the sale of materials of old houses and a further increase of Rs. 2,000 from the tax on house service pipes, of which a large number was given in the previous years. The estimate is approved.

EXPENDITURE.

7. *II. Head Office.*—The net decrease under this head is chiefly due to the abolition of the post of assistant accountant on Rs. 15 per mensem, and to the appointment of a dafadar on Rs. 7 per mensem, instead of a peon on Rs. 6. The provision is passed.

8. Under III. "Collection *(a) Octroi*" also there is a decrease due chiefly to the discontinuance of the temporary allowance sanctioned to the Octroi establishment for collecting the tolls, which are intended to be leased out in future. The provision is approved.

9. *III. Collection (b) and (d) House and other Taxes and Rents.*—The increase on account of salaries of establishments under these heads is due to the provision made for 12 months in the present budget on account of increases to certain hands sanctioned for only a portion of the year during 1900-1901. The estimate is allowed. It is noted that the amount of Rs. 450 sanctioned in the budget for 1900-1901, on account of remuneration to Municipal Commissioners, is omitted in the present budget.

10. *IV. Conservancy.*—The variations proposed are shown below and are is accordance with sanctions conveyed from time to time. The provision is passed with an observation that with a view to introduce house conservancy system the Board wish to retain the services of the extra sweepers brought from Tirupati. The estimate is allowed:—

11. *VI. Registration of Births and Deaths.*—In view of the usual charges on account of the salaries of Registrars of births and deaths, the present budget provides for only a moiety of the cost of the scale of establishments under Health Officer and Registrars of different mohallas as well as Disinfection Staff, Erangere Plague Camp, sanctioned in Proceedings No. Plague 919-22, dated 29th January 1901, with the slight modification noted below and the President states that he solicited the sanction of Government in his No. 684, dated 16th April 1901, to debit the other moiety to Provincial Funds. Pending the issue of final orders of Government on this reference, provision will be made for the entire cost of the modified scale of establishment approved by the Board.

As no Health Officer has as yet been sanctioned for the City, the provision made for his allowance will be a saving for the present.

14. *X. Education.*—Instead of Rs. 1,040 sanctioned for 1900-1901, on account of grants-in-aid to Pial schools, the present budget provides Rs. 1,344. This accounts for the increase under this head, which is sanctioned, subject to details being furnished.

15. *XI. Miscellaneous, (b) Other Items.*—The provision made in the present budget at the rate of Rs. 9 instead of Rs. 8 per mensem, entered in the budget of 1900-1901, on account of the salary of the head mali attached to the People's Park accounts for the increase under this head, which is sanctioned. To meet the maintenance cost of Vani Vilas Water Works incurred during 1899-1900, a sum of Rs. 11,305 will be entered and the provision made in the present budget under the Vani Vilas Water Works raised from Rs. 6,276 to Rs. 17,581, for which details should be furnished.

16. The other items call for no remarks and are passed.

17. The budget estimates of receipts and expenditure of the Mysore City Municipality for 1901-1902 are sanctioned, the details being given in the accompanying statement of which the following is an abstract:—

RECEIPTS.

2. *I. Octroi.*—The decrease in the estimates under this head in the budget of Challakere is based on the actuals of 1899-1900, and that in the budget of Naikanhatti is due to an over-estimate having been erroneously adopted for the year 1900-1901. The estimate is approved.

3. *Tax on Houses.*—The inclusion of revenue expected from the villages of Kilgote and Kavadigarhatti, which were added to the Municipal limits of Chitaldrug accounts for the increase under this head in the budget of Chitaldrug. The increase in the budget of Davangere is due to the tax having been revised and in the budget of Rampur to the levy of taxes at Municipal rates. The estimate is retained.

4. *VII. Mohatarfa.*—The reasons for the increase under Shop-tax expected by the Bagur Municipal Board have not been explained. The omission should be supplied. Pending information the estimate will stand.

5. *Opening Balance.*—In lieu of the estimates entered under this head in the budgets of the Municipalities, as shown below, those specified against each in the last column will be adopted as the correct opening balances :—

Municipality.	Receipts for 1900-1901.	Actual opening balance on 1st July 1900.	Total.	Expenditure for 1900-1901.	Closing balance.

EXPENDITURE.

6. *I. Interest on Debt and XI. Repayment of Loans.*—The provisions made under these heads will be retained, pending the receipt from the Comptroller of a statement showing the sums payable on account of interest and principal towards the repayment of loans advanced from Government to the several Municipalities in the State.

7. *III. Collection (b) House Tax and Mohatarfa.*—No provisions have been made in the budgets of Bagur, Malebennur, Turuvanur, Rampur and Devasamudra for collection charges. In the budgets of Chitaldrug, Holalkere, Jagalur, Molakalmuru and Naikanhatti provisions are made on account of remuneration to village servants for the collection of House and Mohatarfa taxes for one year, while those made in the remaining budgets are for two or three years. The estimate is retained with the observation that the payments might easily have been made in due time every year without arrears.

8. *IV. Conservancy.*—The increases provided under this head are noted in the margin. The provisions made in the budgets of Chitaldrug and Harihar, *viz.*, items (1) and (6) already sanctioned in 1900-1901 and those entered on account of additional hands (2), (3) and (4) horse allowance required for the conservancy of the villages of Kilgote and Kavadigarahatti, included within the Municipal limits of Chitaldrug, as also (5) are passed. The items (7) and (8) proposed in the budgets of Holalkere and Jagalur for the increased rate of hire of a conservancy cart and for the purchase and feeding charges of bullocks, respectively, are sanctioned and provisions made therefor, approved.

CHITALDRUG.

	Rs.
(1) Increase of two rupees to the pay of the Dafadar ...	24
(2) 2 Additional sweepers on Rs 4 each a month ...	96
(3) Peon on Rs 5 a month ...	60
(4) Horse allowance to Overseer at Rs. 8 a month ...	96
(5) Increase of pay to peon on Rs. 7, who will be styled mutsaddi as proposed in letter No. 16, dated 2nd July 1901.	12
Total ...	288

HARIHAR.

(6) Provision made for 12 months on account of pay to scavenger instead of for 9 months as in previous year	24

HOLALKERE.

(7) Increase of Rs. 2 a month for hire of conservancy carts ...	24

JAGALUR.

(8) Increase of Rs. 25 for the purchase and feeding charges of bullocks.	25

9. *VII. Lighting.*—The new items and increase provided under this head in the budgets of Harihar, Jagalur and Holalkere, on account of the purchase of lamp-posts and lamps are allowed.

10. *IX. Charitable Grants.*—The budgets of Bagur, Hosdurga and Harihar provide for the salaries of midwives at Rs. 15 per mensem, instead of Rs. 20 sanctioned for 1900-1901. This accounts for the decrease under this head which is allowed.

11. *XI. Miscellaneous.*—The increase under this head is due to the provision made for the whole year for the salary of the fitter in the town of Chitaldrug, sanctioned in Proceedings No. 9745-6—L. F. 60-99, dated 4th February 1901, and is approved.

12. The other items call for no remarks and are passed.

13. The budget estimates of the several Municipalities in the Chitaldrug district are sanctioned as shown in the following abstract statement. The usual details are appended :—

14. From the above it appears that closing balances are less than the prescribed minimum in 9 out of the 15 Municipalities. The deficiency should be corrected as far as possible.

15. Certain errors are observed in the preparation of the statements, such as entering the total sum provided for works instead of only the establishment charges under VIII. Public Works, (*a*) Supervision, in Statement III. Such signs of negligent work in the President's office should not be allowed to recur.

2. *II. Tax on Houses and VII. Mohatarfa.*—The large decrease under these heads in the budget of Seringapatam is stated to be "due to the slow progress of the collection of arrears of past years, owing to disputes and to the absence from the place of some of the defaulters." This is not creditable to the officials responsible for this work, and the President should take measures to ensure prompt collection and submit a report of the result to Government at the end of three months. It should also be explained under what circumstances a sum of Rs. 14 has been entered in the budget of Melkote as the estimated revenue from loom tax, which was abolished in Proceedings No. 1711-21—L. F. 150-96, dated 31st July 1897. Pending explanation the provision has been struck out.

3. *Opening Balance.*—In lieu of the estimates proposed under this head, the sums specified in column 3 of the marginally noted statement will be adopted as the correct balance in the present budgets.

Municipalities.	Amount proposed. Rs.	Amount sanctioned Rs.
Seringapatam	5,181	3,750
Melkote	93	162
French Rocks	1,086	1,137
Mandya	69	120
Maddur	75	125

EXPENDITURE.

4. *III. Collection, (a) Octroi.*—The provision made for temporary establishments for five months in the hot weather as sanctioned in Proceedings No. 14488-9—L. F. 157-92, dated 1st March 1894, for the collection of Octroi duties and prevention of smuggling when the Cauvery is fordable, will be retained, subject to the submission of explanation as to whether the continuance of the same is still necessary.

5. *IV. Conservancy and VII. Lighting.*—The provisions of Rs. 90 and Rs. 120 made in the budgets of French Rocks and Palhalli for the purchase, respectively, of dust-bins and lamp-posts, are passed.

6. *VIII. Public Works, (a) Supervision.*—The designation of the official for whose pay a provision of Rs. 240 has been made under this head in the budget of Seringapatam, should have been stated. The omission should now be supplied. Pending information, however, the provision will be allowed to stand.

7. The other items call for no remarks and are passed.

8. The budget estimates of Receipts and Expenditure for 1901-1902, are sanctioned as shown in the accompanying statements, particulars of which are appended :—

No.	Municipalities.	Opening balance on 1st July 1901.	Estimated receipts for 1901-1902.	Total including balance.	Estimated expenditure during 1901-1902.	Estimated closing balance.

9. The Government regret to observe that the budget statements have not been correctly prepared. In some cases the difference between the sanctioned estimate for 1900-1901, and the actuals of the first half of the year is shown in column 4 of Statement No. I as the probable collection of the second half of the same year, instead of the actuals of the second half of 1899-1900. The details of provision under "VIII. Public Works, (a) Supervision" ought not to have been shown in Statement No. II, but should be given in Statement No. III.

10. The attention of the President is drawn to the clear instructions contained in Official Memo No. 6861-70—157, dated 8th December 1889. He is requested to see that the statements are correctly prepared and submitted to Government. Moreover, certain statements which were not prescribed by Government and which serve no useful purpose have been submitted. They are herewith returned with an observation that their submission should be discontinued in future.

Letter No. 2073, dated 25th June 1901, from the Comptroller to the Government of Mysore, to the Secretary to the Government of Mysore, General and Revenue Departments.

I have the honor to state that the Municipal and District Fund monthly accounts, submitted to this office by the Presidents, are very imperfect in respect of the vouchers that have to accompany the cash account; many vouchers are reserved for future submission, and only after repeated calls are they sent by instalments as they are received from taluks. It is very necessary that all vouchers should accompany the monthly accounts. Their subsequent receipt leads to the provisional adjustment and incorporation in accounts of charges, the final audit and admission of which have necessarily to be postponed till the receipt of the required vouchers. During all this time the unaccounted charges burden the objection book, which is very undesirable. I give below a few instances in which vouchers which ought to have been sent to my office months ago are still due, and the number of calls made therefor. I beg therefore that such orders may be passed as will ensure the punctual submission in future of all accounts and returns complete in every respect:—

District.	Nature of accounts and month.	No. of vouchers pending.	No. of calls issued from this office.
Mysore City ...	Municipal account for July 1900	3	4
	Ditto for August 1900 ...	1	3
	Ditto for September 1900 ..	1	3
	Ditto for November 1900 ...	2	3
	Ditto for December 1900 ..	5	3
	Ditto for January 1901 ...	4	3
Mysore District	Ditto for do ..	List of works sanctioned.	3
Chitaldrug ...	District Fund account for February 1901 ...	2	4
	Municipal account for August 1900 ...	15	6
	Ditto for September 1900 ...	1	4
	Ditto for January 1901 ...	5	4

No. 2284-94—L. F. 348-96, DATED BANGALORE, 6TH AUGUST 1901.

ORDER THEREON—The attention of Presidents is again drawn to the necessity of submitting the returns and vouchers in the proper form and within the prescribed dates in every case.

2. Government regret that occasion should be given for such general complaints of delay and want of punctuality. The Comptroller is, however, requested hereafter to bring to notice special cases of neglect. It is only then that responsibility can be imputed to the right persons, and proper steps taken to ensure better work in the future.

3. The Presidents of the Municipalities in the Mysore and Chitaldrug Districts will also be requested to submit their explanations as to the cause of delay in transmitting vouchers to the Comptroller in spite of repeated calls therefor:—

No.	Municipal or Local Fund Boards.	Accounts for which vouchers are still due.	No. of calls made.
1	Mysore City	Municipal—July 1900 to January 1901	3 to 4
2	Mysore District	Ditto—January 1901	3
3	Chitaldrug	District Fund—February 1901	4
		Municipal—August, September 1900 and January 1901 ...	4 to 8

RECEIPTS.

2. *I. Octroi.*—New estimates under this head are entered in the budgets of T.-Narsipur, Sosale, Mirle, Bannur and Talkad in accordance with the proposals of Municipal Boards to introduce octroi into them. They will be allowed to stand, pending the issue of final orders on the President's letters Nos. 1027, 1025, 1024 and 1028, dated 17th April 1901.

3. *II. and VII. House and Mohatarfa Taxes.*—The decrease under "House tax" in Sosale and Kalale and under "Oil mills" in Kalale and increase under "House tax" in Talkad and under "Shop tax" in Sargur and Gundlupet as well as cart tax in Bannur should have been explained. The omission should now be supplied; but the estimates are allowed to stand.

4. *Opening Balance.*—In lieu of the estimates proposed under this head, the figures noted below will be adopted as the correct opening balance for each municipality:—

Municipality.	Opening balance.
	Rs.
1. Hunsur	1,851
2. Chamrajnagar	1,511
3. Yedatore	270
4. Heggaddevankote	337
5. Sargur	765
6. Gundlupet	1,123
7. Nanjangud	1,360
8. T.-Narsipur	418
9. Sosale	457
10. Saligram	1,506
11. Mirle	—85
12. Periapatna	159
13. Bannur	596
14. Kalale	—24
15. Talkad	158
Total ...	10,402

EXPENDITURE.

5. *I. Interest on Debt and XI. Miscellaneous (a) Repayment of Loan.*—The provisions under this head will be allowed to stand, subject to the submission from the Comptroller of a statement showing the actual amounts payable by each municipality on account of principal and interest of loans advanced by Government.

6. *III. Collection, (a) Octroi.*—The increases provided under this head are noted in the margin. The employment of a mutsaddi on Rs. 8 per mensem in Chamrajnagar was sanctioned in Proceedings No. 6290-91—L. F. 55-99, dated 6th November 1900, and the provision for the salaries of manegars in the Municipalities of T.-Narsipur and Sosale is stated to have been made in accordance with the President's proposals contained in his letter No. 1025, 1027, dated 17th April 1901, but the authority or circumstances under which the remaining increases were provided for should have been stated in the remarks column of the budget Statement No. III. This should now be done. Pending the issue of final orders on the above reference and the receipt of information in regard to increases in Saligram and Bannur, the provisions will be allowed to stand, but no expenditure should be incurred therefor.

	Cost.
(1) Chamrajnagar—Mutsaddi	1 at 8=96
(2) T.-Narsipur, manegar	1 at 8=96
(3) Sosale ditto	1 at 8=96
(4) Saligram, mutsaddi increase of pay from 5 to 6.	12
(5) Bannur, peon	at 6 Rs. 72
(6) Talkad, peon	at 6 Rs. 72

7. The budgets of Yedatore and Heggaddevankote provide not only for commissions to village servants, but also for contingencies, amounting in the aggregate to Rs. 62 and 30, respectively, which are in excess of the sanctioned scale of 5 per cent commission fixed in para 3 of the late Chief Commissioner's

Proceedings No. 4032-43—Munl. 201, dated 30th October 1879. As no separate contingent allowance in addition to commission can be granted, the provisions for the former will be struck out and that for the latter reduced to Rs. 49 and Rs. 19, respectively.

	Commission proposed.	Sanctioned.
	Rs.	Rs.
Yedatore	50	49
Heggaddevankote	23	19

8. *III. Collection, (b) House and Mohatarfa Taxes.*—The budgets of Yedatore, Heggaddevankote, T.-Narsipur, Sosale and Saligram make no provision whatever for the collection of these taxes, while those made in other budgets are in excess of the 2 per cent remuneration authorized in Proceedings No. 5954-63—L. F. 157-92, dated 31st October 1892. The provisions made will be reduced as noted in the statement below. It must, however, be explained why no provisions have been made in the five budgets referred to :—

No.	Municipalities.	Estimate of house and mohatarfa taxes.	Provision.	
			Proposed.	Sanctioned.
1	Hunsur	2,580	111	52
2	Chamrajnagar	1,986	100	39
3	Sargur	975	30	20
4	Gundlupet	2,294	114	46
5	Nanjangud	3,530	108	71
6	Mirle	896	45	18
7	Periapatna	1,421	68	28
8	Bannur	1,288	52	26
9	Kalale	985	55	20
10	Talkad	1,280	52	26

9. *IV. Conservancy.*—The employment of a conservancy cart at Rs. 12 and a peon on Rs. 5 per mensem in the Yedatore and Heggaddevankote Municipalities, respectively, and monthly increase of Re. 1 to the salaries of peons in Gundlupet and Saligram Municipalities are proposed under this head. The provisions are retained subject to the submission of a detailed report on the subject.

10. *VIII. Public Works, (a) Supervision.*—As the amounts provided under this head in the Municipalities noted below do not correctly represent 1/10th of the provisions made for works, they will be slightly modified as noted against each :—

No.	Municipalities.	Provision for works.	Proposed.	Sanctioned.
1	Hunsur	1,200	110	120
2	Chamrajnagar	800	82	80
3	Yedatore	592	65	59

12	Periapatna	325	45	33
13	Bannur	300	30	30
14	Kalale	160	15	16
15	Talkad	300	30	30
	Total ...	8,067	807	809

11. *XI. Miscellaneous, (b) Other Items.*—The new provision for the gardener at Yedatore is retained in the budget. But a separate report should be submitted concerning the state of the garden he is to be in charge of, when it was started and how it was hitherto looked after.

12. The other items call for no remarks and are passed.

13. The budget estimates of Receipts and Expenditure of the several Municipalities in the Mysore district are sanctioned as shown in the following statement. The usual particulars are appended:—

Municipality.	Estimated opening balance on 1st July 1901.	Estimated receipts for 1901-1902.	Total including balance.	Estimated expenditure for 1901-1902.	Estimated closing balance on 30th June 1902.

Total ...	10,402	38,717	49,119	34,609	14,510

14. The closing balances in some of the Municipalities are less than the prescribed minimum and the President's proposals to reduce the sanctioned allotment, if the actual balances are not in excess of the budget allotments, will be awaited.

15. It is observed that budget statements Form No. I are not correctly prepared. The instructions contained in Order No. 6861-70—157, dated 8th December 1889, should be carefully studied and followed. Certain additional statements not prescribed have been unnecessarily sent up and will be returned to the President's office.

2. *I. Octroi.*—The estimate of Rs. 300, entered under this head in the budget of Holehonnur Municipality, is in accordance with Proceedings No. 6209-10—L. F. 35-98, dated 3rd November 1900. The variations in the estimates of the other municipalities are based on the actual collections of 1899-1900, and on the actuals of the first half of 1900-1901 and also on the probable income for the second half of the year. The estimates are passed.

3. *II. Tax on Buildings and VII Mohatarfa.*—The estimates under these heads, based upon the Jamabandi of 1899-1900, are approved.

4. *X. Miscellaneous (a) Sale of Houses and Lands.*—The increased estimate of Rs. 1,000 in the Tirthahalli Municipality is expected from the sale of the old garden land in the town. Similar explanation has not been furnished for the increase of Rs. 900 expected in the budget of Shimoga for 1901-1902. The omission should be supplied. Meanwhile the estimates will stand.

	Rs.
Shimoga	1,467
Channagiri	2,274
Honnali	163
Nyamti	1,679
Shikarpur	2,040
Sorab	461
Sagar	3,500

Kumsi	900
Benkipur	1,069
Holehonnur	716
Kalhurkatte	610
Siralkoppa	1,436
Total ...	16,549

5. *Opening Balance.*—It is not clear how the estimates proposed under this head have been arrived at. The marginally noted figures based on the actual balance on 1st July 1900, and the sanctioned estimates of receipts and expenditure for 1900-1901 will be adopted as the correct opening balance for 1901-1902.

EXPENDITURE.

6. *III. Collection.*—The budgets of Channagiri, Honnali, Nyamti, Shikarpur, Sorab and Siralkoppa provide for the percentage remuneration payable to village servants for collecting House and Mohatarfa taxes. The remaining municipalities make no provision under this head except Shimoga, which has a separate collection establishment of its own. In the other municipalities it is presumed that the village officials carry on the work and that this has been taken into account in fixing their potgi. The provisions made will be passed.

7. *IV. Conservancy.*—The increases and decreases proposed under this head are given in the margin. The increase on account of the pay of the mutsaddi at Sagar, the appointment of an additional sweeper and of a mutsaddi in lieu of the peon in Benkipur and of an additional sweeper in Channagiri were already sanctioned by Government.

The proposal to purchase wheel barrows in Benkipur and Tirthahalli and to do away with the conservancy cart at Benkipur is approved and the provisions made therefor are sanctioned. The authority sanctioning the employment of a mutsaddi on Rs. 8 in Holehonnur in lieu of a peon on Rs. 6 a month should be quoted. Pending information on this point, the provision will be retained.

8. *VIII. Public Works.*—The absence of provision in the budget of Tirthahalli for supervision charges is said to be due to there being no Work Inspector for the taluk. Owing to paucity of funds the provisions made in the budget of Siralkoppa under (*b*) Roads, Original (100 Rs.) and (*o*) Reserve (100 Rs.) will be struck out and that under (*h*) Buildings Original reduced by Rs. 500, proportionate reduction being made under (*a*) Supervision. A sum of Rs. 805 entered under "XI Miscellaneous (*c*) Repairs to cattle pounds" should properly

appear under "VIII. Public Works (*l*) Other Works, Repairs". The necessary transfer will accordingly be made and the provision under "(*a*) Supervision" raised by Rs. 8. Including the above alterations the total estimate under "Public Works" comes to Rs. 17,531, which is sanctioned.

9. *IX. Charitable Grants.*—The budget of Nyamti newly provides Rs. 60 at Rs. 10 per mensem on account of special allowance to the Hospital Assistant of Honnali for visiting the town to render medical aid to the people there. This is in accordance with Proceedings No. 11648-50—L. F. 144-92, dated 5th March 1901, and is allowed subject to the submission of explanation as to why provision is made only for six months.

10. *XI. Miscellaneous* (*c*) *Cattle Pounds.*—The budget of Shimoga provides for the salary of an additional peon for the cattle pound in the bandy stand sanctioned in Proceedings No. 4556-7—L. F. 58-99, dated 25th September 1900. The provision is passed. With reference to the remarks contained in para 8 *supra* the estimate under this head will be reduced by Rs. 805.

11. (*h*) *Other Items.*—The pay of the gardener at Shimoga is proposed to be reduced from Rs. 10 to 8, the number of kamaties or malies being reduced from 4 to 3. This is approved.

12. The other items call for no remarks and are passed.

13. The budget estimates of Receipts and Expenditure of the several Municipalities in the Shimoga District for 1901-1902 are sanctioned and an abstract is given below, the usual statements being appended:—

No.	Municipalities.	Estimated receipts for 1901-1902.	Estimated opening balance.	Total including balance.	Estimated expenditure for 1901-1902.	Estimated closing balance.

Letter No. 1544, dated 22nd April 1901, from the Deputy Commissioner, Bangalore district, regarding the compensation claimed by one Rangappa, on account of his lands expected to be submerged by the proposed restoration of the Panditha na Agrahara tank in the Hoskote taluk.

No. R. 843, DATED BANGALORE, 17TH AUGUST 1901.

ORDER THEREON—On a reference made in December 1895 by the Executive Engineer, Bangalore Division, to the Deputy Commissioner, Bangalore district, regarding the restoration of the breached Panditha na Agrahara tank in the Hoskote taluk, it was ascertained that the following lands would be submerged by the proposed restoration :—

Acres.	Guntas.	
21	33	Out of Survey Nos. 50 to 62 (except No. 56) in the Mahal Chandenahalli, belonging to Rangappa.
2	1	Out of Survey No. 56 of the same village, belonging to Balanna.
0	36	Out of Survey No. 63, Toti Service Inam.
24	30	

Of these lands, compensation which was fixed at Rs. 1,058-8-0 was to be paid for only 14 acres and 29 guntas of Rangappa's land, as the remaining lands except the Service Inam were stated to belong to the bed of the breached tank, and for the Service Inam, other land was to be given in exchange.

2. In February 1898, Rangappa and Balanna petitioned the Assistant Commissioner, enquiring whether they could cultivate their lands, expected to be submerged. The Assistant Commissioner, Mr. Coopoosami Naidu, ordered stoppage of cultivation and the order was communicated to the petitioners on the 14th March 1898.

3. On the 18th December 1899, the Superintending Engineer intimated to the Deputy Commissioner that the project of restoring the tank had been abandoned for the time being, as it was not so profitable as at first supposed and as the amount of compensation to be paid was also large. Consequently, the owners of the lands in question were informed in January 1900 that they might resume cultivation.

4. In June 1900, Rangappa requested the Deputy Commissioner that either the amount of compensation fixed for his lands or the price of 250 kandis of paddy at the current rate which he would have realized by cultivating his lands might be paid to him. The Deputy Commissioner called upon Mr. Coopoosami Naidu, retired Assistant Commissioner, to explain on what authority he prohibited cultivation of the lands in question. Mr. Coopoosami Naidu states that as he thought that the work had been provided for in the budget of that year, and as in case the lands were allowed to be cultivated, Government would have to pay heavier compensation on account of the crops, he ordered the stoppage of cultivation, that if the Public Works Department or the Deputy Commissioner had directed him to make *a valuation* instead of *to settle* the compensation, there would have been no reason to issue the order in question, and that if the Public Works Department had intimated their intention of abandoning the project early, there was time enough to inform the raiyats of the same. The Deputy Commissioner now submits the correspondence and solicits the orders of Government in the matter without giving his opinion thereon.

5. Government are not satisfied with the report of the Deputy Commissioner (Mr. B. K. Venkatavaradaiengar). His responsibility as the Officer entrusted with the executive administration of a district was not properly discharged by a report containing a bare statement of facts.

6. The Deputy Commissioner of Bangalore is requested to investigate the case and ascertain. (1) whether from Pahani accounts or other evidence, the lands in question were actually left uncultivated during the period from March 1899 to January 1900, and whether they could have been cultivated successfully; (2) whether the holders thereof are entitled to any compensation for loss of crops; and (3) if so, what compensation may fairly be paid over and above the remission of kandayam, if such remission itself be not regarded as a sufficient compensation; and whether intimation was given to the Public Works Department that the cultivation of the lands had been prohibited. A full report should be submitted for the orders of Government.

Letter No. D. 1771, dated 7th June 1901, from the Deputy Commissioner, Bangalore district, soliciting instructions regarding the disposal of Survey No. 74 in the Yedavanahalli village, Bidarguppe hobli, Anekal taluk.

No. R. 859, DATED BANGALORE, 19TH AUGUST 1901.

ORDER THEREON—In Government Proceedings No. 6390-91—R. 2065, dated 17th January 1898, the appropriation of Revenue Survey No. 74 (gomal) measuring 45 acres and 38 guntas of Yedavanahalli, Anekal taluk, for cultivation purposes, was sanctioned and the land was directed to be disposed of under darkhast rules. Accordingly, the Deputy Commissioner ordered the sale of the land by public auction. In the sale, patel Munireddi purchased the entire number for one rupee. The Amildar reported that as the darkhastdar Venkatappa, who offered to pay an upset price of Rs. 11-8-0, at annas four per acre, was the holder of the land prior to the Survey Settlement, the question of granting it to him for the upset price offered might be considered. After some correspondence in the matter of subdividing the Survey number, the Amildar reported that if the land was subdivided, portions thereof might remain unoccupied, as it contained gravel, &c., in several places, that as the land contained no trees, there was no necessity for selling it by public auction, and that patel Munireddi, who was not on good terms with the shanbhog, the darkhastdar's brother, had offered to increase the price in case the land was re-sold. The Amildar, therefore, recommended that the whole Survey number might be given to Venkatappa for an upset price, as it was not likely that a higher price would be obtained if the land was sold again. The Assistant Commissioner in charge of the taluk (Mr. C. Rajagopalacharlu) then ordered that as the former occupant of the land was the darkhastdar and as the sale thereof would give room for others purchasing it, an upset price of Rs. 5 might be taken from the 1st applicant and the land made over to him. The Amildar accordingly made over possession of the land to Venkatappa on 24th February 1900.

2. When the Assistant Commissioner submitted the records of the case with a view to have the assessment fixed on the land, the Deputy Commissioner (Mr. B. K. Venkatavaradaiengar) on 5th October 1900 observed that the grant of the land to Venkatappa for Rs. 5, when he had offered to pay for it at four annas per acre, was irregular, and ordered the re-sale of the land. The Amildar and the Assistant Commissioner then solicited instructions as to how the matter should be proceeded with, as the possession of the land had already been made over to Venkatappa. The Deputy Commissioner (Mr. B. K. Venkatavaradaiengar) again ordered that his previous orders should be given effect to. In accordance therewith, the Amildar held the sale of the land again on the 11th March 1901, when Venkatappa declined to be present, and it was purchased by patel Munireddi for Rs. 140, which amount was also paid by him. The Deputy Commissioner (Mr. B. K. Venkatavaradaiengar) solicits instructions as to how he should proceed, as Para 29 of Rule XX of the Land Revenue Rules requires the sanction of Government to take back the lands once put in possession of any person.

3. Government are not surprised at Venkatappa declining to be present at the re-sale. The proceedings taken by the Revenue authorities are such as would disgust any person of ordinary sensibility. The land, in the first place, was set free for occupation as the villagers felt that Venkatappa had been its previous occupant and they did not like to stand in the way of his obtaining it by darkhast. Government do not know if the authorities acted rightly in selling it in the first instance.

4. The Assistant Commissioner, Mr. Rajagopalacharlu, exercised a proper discretion in giving the land to Venkatappa. He may have taken the sum of Rs. 11-8-0 from Venkatappa as first offered, but surely an officer in the position of an Assistant Commissioner in charge of a Sub-Division may well be trusted with discretion as to the terms upon which a piece of waste land should be given to an applicant. He was on the spot and knew the circumstances.

5. Government are not sure if the Deputy Commissioner, Mr. Venkatavaradaiengar, exercised his powers rightly in cancelling the order of the Assistant Commissioner, especially many months after Venkatappa had been put in possession. There was an opportunity for the Deputy Commissioner to reconsider the false step he had taken when the Assistant Commissioner later on asked for instructions as to how he was to proceed as Venkatappa had been put in possession of the land. Even then the Deputy Commissioner did not see the inconvenience caused by his order, but directed that his first order should be carried out; and now the same Deputy Commissioner asks for instructions as to how he is to proceed as the Rules do not permit possession once given being disturbed without the orders of Government.

6. Government think that there should be certainty and uniformity in the action of Government and its agents, which have been conspicuously absent in this case. Government agents have been in a manner promoters of a spirit of gambling with Government land and encouraging factions which are already more than is desirable for the peace of a village.

7. The order of the Deputy Commissioner cancelling the grant of the land in question to Venkatappa for Rs. 5, is set aside and the subsequent sale held on the 11th March 1901, in which Munireddi purchased the land for Rs. 140, cancelled.

READ—

The following letter No. 42, dated 13th July 1901, from the Superintendent of Revenue Survey in Mysore, to the Secretary to the Government of Mysore, General and Revenue Departments.

I have the honor to submit, for the information of Government, the result, detailed in Appendices A and B, respectively, of certain inspections of Boundary Marks and examination of village papers carried out by me during the months of December and January last.

2. As regards Appendix A, which gives the detail of my inspection of Boundary Marks, it will be observed that while there are a good many instances in which the village officers have failed in the execution of their duties, the omissions are, for the most part, of the ordinary character. Case No. 3 in Appendix A was at once reported direct to the Deputy Commissioner and the shanbhog was suspended for two years, in my opinion an inadequate punishment for deliberate fraud on the part of a Government servant. The Deputy Commissioners may take fitting notice of other cases recorded in Appendices A and B.

3. On the whole, the condition of the Boundary Marks, although not good, was better than I had expected. I shall, in another place, and in connection with the compilation of a separate Revenue Manual, as required by the Rules under the Land Revenue Code, now under revision, propose an additional and very simple form, as an enclosure to the Pahani Takhta or inspection of lands, crops, and Boundary Marks, calculated to produce practical results from the first inspection, by a second inspection of Boundary Marks found out of repair and, if the second inspection fail, to ensure the erection or repair of missing or imperfect marks as provided by law (Land Revenue Code, Sections 130 to 133). The present practice is for the shekdar (superior officers, I may remark, rarely test in the field), taking a test and finding some Boundary Marks out of repair, to issue a general notice to the village officers to have *all* Boundary Marks brought up to standard. The result is a general but somewhat desultory building up of Boundary Marks, whether out of repair, as defined in the Rules [see present Land Revenue Rule XXX (8)], or not, the really faulty marks probably being left untouched. While extremely loth to criticize any measures, however informal, which may tend towards the general up-keep of demarcation, I am bound to recommend a more systematic and regular mode of dealing with Boundary Marks. This, as I have already stated, will be duly provided for in the Revenue Manual, to accompany the revised Rules under the Land Revenue Code.

4. As regards Appendix B, which gives the detail of my examination of village papers, I am unable to report at all favorably. The time of the year at which I examined the accounts had, in some respects, its drawbacks, for few of the accounts were closed, whilst some had just been opened, but, in other respects, the time selected for examination had its advantages. I was able to see whether the most important of all the village papers, the Pahani Takhta or inspection of lands, crops and Boundary Marks, and the inspection of waste lands had been punctually commenced and completed; and whether immediately after the inspection, the Ledger or "Khata" had been opened, in short, whether the shanbhogs had been deferring till the last moment the preparation of the various papers with which they should have met the Amildar at his jamabandi. Appendix B furnishes a good deal of information on these points, but, speaking generally, I may express my opinion that the shanbhogs were not up to time, and that the Amildars are far too much inclined to let the shanbhogs postpone to an unnecessarily late date the preparation of the accounts which should have been ready for his (the Amildar's) scrutiny and approving signature, before being summarized in the "jamabandi Kanjyasti goshwar." In short, the Amildars make the shanbhogs too much their mere "Aides" in hurriedly preparing for the district jamabandi, instead of exacting from them a sufficiently advanced state of preparedness before the Amildar's own jamabandi commences. The forms of village accounts I found in themselves fully adopted for securing the Government and protecting the raiyat, all that was required being their punctual and complete preparation.

5. But while I have had to find fault with the ordinary village forms chiefly on the score of want of punctuality in their preparation, I have to report most unfavorably upon the manner in which Form No. 1 or the "Ketwar Patrik" is maintained. This form is not prepared annually; indeed, it is quite possible that its preparation once in 15 or even 20 years would, in some villages, suffice, but its maintenance and correction from time to time, to meet authorized changes, is of vital importance, it being the foundation of all the Land Revenue Accounts. The "Ketwar Patrik" is, in the first instance, prepared from the Settlement papers, immediately after the introduction of the Settlement of which it is, at that time, the exact replica, as regards division of land, area, assessment and occupancies, but, as time goes on, it becomes imperative to correct both the Survey records and the "Ketwar Patrik," to meet authoritative changes involving the transfer, from the "cultivable" to the "uncultivable" columns, of cultivable land appropriated or assigned, under proper authority, to any purpose unconnected with agriculture. Conversely, land newly assessed has to be transferred from the "uncultivable" to the "cultivable" columns. I will briefly explain the proper procedure. When land has, as above, been appropriated or assigned under proper authority, the Revenue authorities should at once report the matter to the Survey Department, with a view to the correction of the areas or ascertainment of the new boundaries through the District Surveyor or a measurer specially deputed from the Survey Department. The detailed measurements, with the taluk copy of the village map and the papers of the Survey record, should then be sent to the Survey Department in order that they may be corrected and the assessment of the land reduced, or added, as the case may be. On the receipt of intimation that the necessary alterations have been made in the Survey record, a corresponding alteration should be made in the "Ketwar Patrik," and the necessary transfer from the "cultivable" to the "uncultivable" columns, or *vice versa*, made. If, for any special reason, any land only temporarily assigned may have to remain in the "cultivable" column, this may be done, but such cases would be very rare and the order of Government sanctioning the arrangement should be quoted.

6. Having the strongest doubts regarding the maintenance of the "Ketwar Patrik," I was obliged, before writing this report, to await fuller returns which I now append in Appendix C. This appendix is for the Tiptur taluk and Turuvekere sub-taluk only, as it would make this report far too bulky to give particulars for all the taluks brought under observation. It must not be supposed that I have in any way selected these two taluks as being worse than others; as a matter of fact, the state of things in the other taluk is, if anything, worse. I will briefly state the chief heads, under which irregularities have occurred on a large scale:

1st—Cultivable land has been appropriated to purposes unconnected with agriculture, and to public and special purposes, on the sole authority of the Deputy Commissioner, the sanction of Government having been obtained in scarcely any instance. Land has been reserved for the Excise and Forest Departments on a large scale and no reference even made as to whether it should be removed from the "cultivable" columns of Form No. 1. Land has been taken for gravel pits, roads, &c. None of the above appropriations have ever been reported to the Survey Department.

2nd—The Deputy Commissioner on his own authority has dealt with very numerous cases in which land has been submerged, has struck off the assessment, never reporting the matter to the Survey Department, and the Akarbands remain uncorrected, as well as the maps.

3rd—"Kharab" land has been assessed by the Deputy Commissioner and no intimation whatever made to the Survey Department. The Akarbands remain uncorrected (see Cases 3 to 7 in Appendix C).

7. The remedy which I suggest is the laying down of the strictest orders as to the powers of Revenue Officers in the matter of appropriation and assignment, in a word, alienation, of assessed land. In Bombay, the Commissioner, but not the Collector, can sanction appropriation of land for roads when no compensation has to be paid for the land taken up, and for Schools, Darmasalas and other public purposes, subject to the limitation that the market value of the land appropriated does not exceed Rs. 100 in each case. For other purposes, the Commissioner can sanction appropriation, provided the assessment of the land appropriated does not exceed Rs. 5. In Mysore, the power of appropriating land should rest exclusively with Government.

8. I am not aware that Government has delegated to Deputy Commissioners the power to appropriate, to assign, or in any way alienate land; at any rate, I would earnestly urge that the sanction of Government should be invariably necessary before any

land is appropriated, and that the Revenue authorities should be bound, on receipt of such sanction, to acquaint the Survey Department with the orders of Government. This should be done, as a matter of form and precaution, even although the orders of Government may have been forwarded direct to the Survey Department, for thus the responsibility will, as is only right, rest on the Revenue authorities. Moreover, it should rest with the Survey Superintendent to decide, on receipt of Deputy Commissioner's report, by whom the necessary detailed measurements should be made, whether by the District Surveyor or by a measurer specially deputed by the Survey Department. The procedure laid down at para 5 above, which will eventually be incorporated in the new Revenue Manual, should be invariably observed. As regards the arrears, as I may call them, in correcting and altering the Survey Record and "Ketwar Patrik," I must now do the best I can to have them brought up.

9. During my tour I inspected the Taluk Cutcherries of Magadi, sub-taluk Turuvekere, Chiknayakanhalli, Hiriyur and Maddagiri, with reference chiefly to the manner in which the Settlement records were preserved. I found that a good deal of laxity prevailed. In the Magadi Taluk Cutcherry, I found that some of the maps which should have been amongst the Settlement separate bundles of each village, were missing and no efforts have been made to replace them by applying for new copies. In some cases, I found separate papers taken out, for reference or other purpose, from the Settlement bundles. This should never be allowed, the whole bundle of Settlement Papers being always kept intact, and together, when required for reference. The catalogues of the Settlement Papers were not kept in any prescribed form. The records in the Chiknayakanhalli Taluk Cutcherry were far in advance of those of the other Cutcherries inspected, both in neatness and arrangement, and the Record-keeper deserves praise.

10. The Village Accounts are also kept in separate cloths and bundles. No fixed procedure has been laid down as to the custody and preservation of the Village Accounts, and as to keeping certain accounts permanently and others for only a limited time. This, I trust, will be satisfactorily provided for in the new Revenue Manual. I found the Village Accounts, on the whole, fairly well preserved.

11. I have one more important matter to bring to notice. It is the practice to give the same shanbhog two and even three charges as fixed by the Revenue Survey. In more than one instance, during my enquiry, a shanbhog excused himself for the non-production of some account by stating that he had too much to do. If the shanbhog's charges, as fixed by the Survey, on the principle of giving each officiator not more villages than he can manage, have been in any way erroneously fixed with reference to the family in which the Hak has been vested, that is, if a village belonging to one Hak has been erroneously included in the charge of another Hak, by all means let the matter be enquired into. It must be remembered, however, that the shanbhog's charges were originaly fixed on the "Hakdar" statements furnished by the Revenue authorities and the distribution made by the Survey Department concurred in by the Deputy Commissioners. If so-called Haks have been created since the Potgi Settlement, it appears to me that they have not been legally created. I have collected a mass of information from the Revenue authorities with which I will not burden this report, but it shows that the distribution of charges by the Survey Department is but little regarded by the Revenue authorities who allow the shanbhogs to divide up the charge of villages prety well as they please, the Potgi being divided up accordingly. I am unable to understand why the charges made by the Survey Department, so long as they are not opposed to Hak, as existing at the time of the original Potgi Settlement, should not be respected, an officiator being appointed from the family in which the Hak vested, as provided for in Potgi Rule XXX.

12. Another matter which deserves the careful attention of the Deputy Commissioners is the retention in use of uncorrected copies of "Akarbands" and village maps. They should see that when any alteration is made in the Survey Records, whether Akarband or map, no uncorrected copy of either of these documents should remain in the hands of any officer whether district, taluk, or village. The best course would be, whenever alterations have to be made of areas in the Akarbands, to send to the Survey Department *all* the copies of Akarbands in use which will be returned corrected. When both Akarband and map have to be corrected, the District Surveyor should collect *all* the copies of both Akarband and Map.

3	Tirumale ...	18th December 1900.	101	..	...	...	...	...	...	...	...	..	The bandhs shown in excess in Survey Nos. 86 and 88 have been fraudulently erected by shanbhog of Kormangla, the khatedar. Boundary marks such as were found, are in fairly good order. The shanbhog of Kormangla is, in my opinion, an unfit person to employ on Government work. I would recommend his dismissal. Recent communication from the Deputy Commissioner shows that the shanbhog has been suspended for 2 years.

The demarcation at the tail end of the Amanikere has been so disgracefully neglected that I propose rectifying demarcation professionally and addressing the Deputy Commissioner with a view to cost being recovered from shanbhog and patel, proportionately to their potgi. The excuse was of course made that the bandhs would not stand owing to rush of water, but this I ascertained was not the case.

1	Kodagihalli, Magadi taluk.	15th December 1900.	Correct but not sealed or sufficiently attested.	In hand.	In hand.	No raiyats present.	In hand.	Correct; grazing sold by auction, raiyats not being agreed about "Hanchagi."	Correct but Goshwara not yet prepared. Boundary marks entered as correct, but no test by superior officer.	...	In hand.	Completed, excepting columns 25, 26 & 27.	In hand.	In hand.	Amildar did jamabandi in November. District jamabandi due about 20th December. More progress might have been made before Amildar's jamabandi.
2	Kanelli, Magadi taluk.	15th December 1900.	...	...	...	...	...	...	...	...	...	...	...	...	Village officers failed to appear. Such accounts as I saw were imperfect. Map in tatters, evidently not taken care of. Shanbhog Venkatanbaiya disappeared last year, Hakdar Krishnaiya (a karkun in the Survey Department) appointed Walbaia to officiate. This deputing of work should be looked into.
3	Srigand kaval, Bangalore taluk.	15th December 1900.	Not sealed, not signed by Amildar, otherwise correct.	In hand.	In hand.	No raiyats present.	In hand.	Grazing free, neither auction nor "Hanchgi" only six numbers waste.	Shekdar tested 25 Nos. but no second inspection made. No abstract of crops made.	...	In hand.	In hand.	In hand.	In hand.	In this taluk three hoblis are, as being near Cantonment, free from sale of grazing. Boundary marks of course suffer as a consequence. I suppose the measure is necessary but in many villages it means that the raiyats get the grazing for nothing.
4	Kondhalli, Magadi taluk.	17th December 1900.	Correct, but transfers, &c., should be more lucidly entered.	Not begun. The headings at any rate might have been begun and taluk seal obtained.	In hand.	Books of ten raiyats compared, correct.	In hand.	Waste lands sold by auction.	No test of Boundary marks this year, none was done last year. No superior officer has ever tested. No second inspection of Boundary marks out of repair. Abstract of crops not done.	...	In hand.	In hand.	In hand.	In hand.	Taluk jamabandi not begun. Shanbhog states that he does not prepare Forms 9, 10 & 12 till taluk jamabandi is done.

5	Tirupale, Magadi taluk.	Not ready.	Not ready.	Not ready.	Not ready.	..	No second inspection of Boundary marks out of repair.	Correct.	In hand.	Books of 8 raiyats compared, raiyats being present. Correct.	In hand.	Not begun, could easily have been prepared so far and taluk seal obtained.	Amildar has not signed throughout nor is there taluk seal.	17th December 1900.	Taluk jamabandi done 17 days ago. Accounts far too much in arrears. An uncorrected map in use, showing only 126 Survey numbers while corrected Akarband shows 137 Survey numbers. This arises from the fact that when a correction is made, *all* Akarbands and maps are not sent to the Survey office by Revenue Department. It is a very grave mistake leading to confusion.	Not ready.	In hand.	In hand.	In hand.
6	Hosahalli, Magadi taluk.	Not ready.	Not ready.	Not ready.	Not ready.	...	Shekdar tested 17 numbers all correct although village officers found several Boundary marks out of repair.	Correct.	In hand.	Books of 4 raiyats compared. Correct.	In hand.	In hand.	Sealed on last page only.	27th Dec 1900.	Taluk jamabandi done 17 days ago, progress unsatisfactory. Shanbhog's, as a rule, put off preparation of accounts to the very last. They regard the Amildar's jamabandi more as a help to them than a controlling power. Maps are not sent to the Survey office by Revenue Department. In is a very grave mistake leading to confusion.	Not ready.	In hand.	In hand.	In hand.

9	Madikihalli, Kunigal Tk.	In hand.	In hand.	In hand.	In hand.	...	This year's form not produced.	Correct.	In hand.	No raiyats present.	Not begun.	In hand.	Fair.	19th December 1900.	Everything late in this village. Shanbhog looks after *two* charges, combined assessment Rs. 4,000. This should not be permitted, as it is quite beyond the power of one man to discharge the duties properly.	In hand.	In hand.	In hand.

No. R. 872-81—R. F. 32-97, DATED BANGALORE, 19TH AUGUST 1901.

ORDER THEREON—The above report will be circulated for the information and guidance of the Deputy Commissioners and other Revenue Officers.

2. The attention of the Deputy Commissioners of Bangalore and Tumkur is invited to the several matters reported therein, which are briefly as follows :—

(*a*) Supplying or bringing up to standard boundary marks, where they are missing or defective.

(*b*) Removing boundary marks which are in excess.

(*c*) Getting uncorrected maps and Akarbands corrected.

(*d*) Indicating "Phod" by using marks unlike those used by the Survey.

(*e*) Preparation of village accounts, especially the Pahani Takhta, properly and in time.

(*f*) Prohibiting shanbhogs from attending to the work of two or more charges and also from making private arrangements for carrying on work.

3. The Deputy Commissioners of the two districts are requested to have all the defects noted by the Survey Superintendent remedied within three months from the date of this Order and submit reports to that effect after proper inspection by the Amildar or any higher Revenue officer.

4. If, as observed by the Superintendent in para 6 of his letter, cultivable land has been appropriated for purposes unconnected with agriculture and for public and special purposes on the sole authority of the Deputy Commissioner without the sanction of Government, the procedure is highly irregular, as such a power has not been delegated to Deputy Commissioners, and it should at once be discontinued. Similarly, the action of the Deputy Commissioner of Tumkur was not right in striking off the assessment on submerged lands on his own authority. In all matters of alienation and appropriation, the sanction of Government should invariably be obtained and intimated to the Survey Department, to enable that Department to correct the maps and records in such manner as may be required.

The Deputy Commissioner of Tumkur is requested to submit a special report soon after the next Jamabandi, together with any explanation he may have to offer concerning acts done in excess of authority.

5. Regarding the distribution of shanbhogi charges, the Deputy Commissioners of districts are requested to report on the following points :—

(*a*) How many cases are there of the same shanbhog being given two or more charges as fixed by the Revenue Survey ; and what explanation has the Deputy Commissioner to offer for allowing such irregularity to exist ?

(*b*) In how many cases have one or more villages of one shanbhogi hak been included in the charge of another ?

(*c*) Has there been any change after the Potgi settlement, resulting in the creation of new haks not authorized ? If such haks have been created, they are irregular and should not be recognised.

Government consider that it was highly irregular on the part of Deputy Commissioners to take upon themselves to divide the charges of shanbhogs as fixed by the Survey Department, and it was even more irregular to divide the Potgi among several persons. The Deputy Commissioners of districts will bear in mind the remarks made by the Superintendent of Revenue Survey on the subject, and take every precaution to see that the charges made at the original Potgi settlement are not interfered with.

6. The attention of all the Revenue officers is invited to the revised rules for the inspection of boundary marks laid down in the new Land Revenue Rules. Government trust that the defects noticed are not as general elsewhere as in the taluks visited by the Superintendent of Revenue Survey, and that the District Officers will adopt the necessary measures to see that irregularities like these, some of them of a grave character, being violations of clearly defined rules, are promptly rectified so as to give no occasion for remarks from the Superintendent of Survey when he next goes on a tour of inspection.

7. The revised rules and suggestions promised by the Survey Superintendent will be awaited.

8. The attention of the Deputy Commissioners of Bangalore and Tumkur is drawn to the remarks made on the several cases mentioned in the statement appended below :—

Cases noticed.	Subject.	Remarks.
	Appendix A.	
Case No. 3 ...	Fraudulent erection by the Shanbhog of Koramangala of boundary marks in Survey Nos. 86 and 88 of Tirumale, Magadi taluk.	The shanbhog should have been dismissed as recommended by the Superintendent of Revenue Survey and not punished only with suspension for two years. The Deputy Commissioner of Bangalore will be good enough to send the papers connected with his case for the orders of Government.
Case No. 9.	False entry madeb y the shanbhog of Doderi, Maddagiri taluk, that the boundary marks of Survey Nos. 124 and 125 of the said village were "durast," when they had disappeared at corners of the said numbers.	The Deputy Commissioner is requested to take due notice of the conduct of these shanbhogs and patels.
Cases Nos. 37 and 39.	Shanbhogs and patels of the Wodderhalli and Mudlappana villages, Koratagere sub-taluk, who are recommended by the Superintendent of Revenue Survey to deserve punishment.	
	Appendix B.	
Case No. 2 ...	Failure on the part of the village officers of Kanelli, Magadi taluk, to appear before the Survey Superintendent when he inspected the village.	The Deputy Commissioner's attention is invited to this.
Case No. 3 ...	Three hoblis, near the Civil and Military Station, in the Bangalore taluk, are free from the sale of grazing.	The Deputy Commissioner is requested to explain why the three hoblis are free from the sale of grazing.
Case No. 9 ...	The shanbhog of the village of Madikihalli, Kunigal taluk, looks after two charges.	The Deputy Commissioner should report why the shanbhog is charged with the work of two circles.
Case No. 10.	Reservation of date trees ordered by the Deputy Commissioner in "Pot Kharab" of Survey No. 49 of Kotigere, Kunigal taluk, although this field was under occupancy at the time of Survey Settlement.	The Deputy Commissioner's action seems to be unwarranted. He is requested to report why the reservation was directed.

Letter No. 26, dated 4th July 1901, from the Deputy Commissioner, Bangalore district, soliciting sanction to the appropriation for cultivation of Survey No. 26 (gomal), measuring 8 acres and 11 guntas, of the Muthugadahalli village, Magadi taluk.

No. R. 973-81, DATED BANGALORE, 23RD AUGUST 1901.

ORDER THEREON—In January 1884, one Linga having applied for the grant of Survey No. 25, measuring 4 acres and 7 guntas and assessed at Rs. 4-4-0, in the Muthugadahalli village, Magadi taluk, the said land was sold in auction to Linga for Rs. 12-4-0. But instead of occupying No. 25, Linga took hold of the adjoining gomal land, Survey No. 26, measuring 8 acres and 11 guntas, which was assessed at Rs. 11-11-0 during the Survey Settlement in 1882, but was subsequently reserved as gomal. The irregularity continued till November 1899, when the matter was brought to the notice of the Amildar, who, after instituting the necessary enquiry, placed it on the Takrar Takhta for 1899-1900. The Jamabandi Officer imposed a fine of Rs. 123-4-0 on Linga, being the difference of assessment on the two numbers for 16 years from 1884-85, and recorded that the land might be given to Linga. Accordingly, the fine was recovered from him. The villagers, who were consulted, had no objection to the grant of No. 26 to Linga. The Amildar reported that Survey No. 25, which contained about 1,000 date trees, was removed from the khate of Linga, and that there were about 65 date trees on Survey No. 26; and requested orders as to whether the land was to be granted reserving the date trees. The Deputy Commissioner now solicits the sanction of Government to the grant of the land in question to Linga.

2. The Deputy Commissioner's recommendation is sanctioned, with the observation that the village officials were at fault both in selling the wrong field at the outset and in not discovering the error subsequently. The date trees on the land need not be reserved.

3. It is directed that in future, when lands are sold or granted on darkhast, date or other trees should not, as a rule, be reserved. The trees may be granted with an upset price put on them or sold outright with the land on which they are standing. Reserving toddy trees is not calculated to benefit either the Government revenue or the occupant.

4. The assessment leviable on Survey No. 26 will be fixed in communication with the Superintendent of Revenue Survey in Mysore.

No. R. 1000-7, DATED BANGALORE, 26TH AUGUST 1901.

ORDER THEREON—The following statement shows the names of the officers who conducted the jamabandi of the several taluks of the Kadur district during 1899-1900 and 1900-1901, the dates of commencement and completion of jamabandi, and the number of camps made :—

* The difference between these figures requires explanation.

The period occupied in the settlement of the whole district in 1899-1900 extended from the 11th November 1899 to the 15th January 1900, whereas in 1900-1901 it was much longer, being from 21st November 1900 to 23rd February 1901.

2. *Village Accounts.*—The Jamabandi Officers examined the accounts of 250 villages against 124 in 1899-1900. The accounts of the villages in all the taluks except Kadur and Tarikere, are reported to have been kept in a fairly satisfactory manner. In the Kadur and Tarikere taluks, it is reported that the Vasul Baki Account No. V was not written up in 1899-1900 and that the check of the village accounts by the taluk authorities was very superficial. All the omissions and errors noticed in the accounts are reported to have been rectified then and there.

3. *Accounts of Inam Villages.*—The progress made in getting accounts Nos. 14 and 15 prepared as required by Rule VI of the Land Revenue Rules, has not been satisfactory. Separate orders have already been issued on the subject, *vide* Government Order No. 301-8—R. F. 43-98, dated 24th July 1901.

4. *Pahani Work.*—Several irregularities are reported to have been noticed and rectified in the Pahani Registers of the Kadur and Tarikere taluks in 1899-1900. The Pahani work done by the Amildars of these taluks in 1900-1901 is stated to fall short of the prescribed limit, *viz.*, 20 per cent. Mr. B. Ramaswamaiya states that in the taluks of Chikmagalur and Mudgere settled by him in 1900-1901, this work, although fairly attended to, was capable of much improvement in the way of securing greater accuracy. On the whole, the work does not appear to have received the necessary attention and scrutiny on the part of Amildars.

5. *Inspection of Boundary Marks.*—The rules contained in Government Order No. 6520-28—R. F. 32-97, dated 17th March 1899, regarding the inspection of boundary marks, not having been well understood by the subordinate taluk officials, there was no perceptible progress in this direction in the year 1899-1900. Greater attention was paid to this in the succeeding year.

6. *Inspection of Boundary Marks between the Mysore and the British Frontiers.*—The boundary marks on the frontier were duly inspected and nothing calling for special attention was noticed.

7. *Disposal of Takrar Takhtas, Rajinamas and Darkhasts.*—Due attention was paid to this branch of the work in 1900-1901. There is no information on this point in the reports for the previous year. The following statement shows the Takrars, Darkhasts and Rajinamas received and disposed of in 1900-1901 :—

Taluks	Received			Disposed of		
	Takrars	Darkhasts	Rajinamas	Takrars	Darkhasts	Rajinamas

Yedahalli	8	58	7	8	58	7

* Note—These figures are not given.

8. *Settlement of Disputes* re *transfer of Pattas and the Examination of Raiyats' Pattas.*—This work was attended to in both the years.

9. *Revenue Demand.*—The following statement shows the talukwar demand for the two years, with reasons for the difference. The demand as estimated for the year 1900-1901, is also given in the statement for comparison :—

Taluk.	Demand as settled for 1899-1900.	Actual demand for 1899-1900.	Estimated demand for 1900-1901.	Demand as settled for 1900-1901.	Difference between columns 3 and 5.		Remarks.

10. *Inspection of Waste Lands.*—A few cases of encroachments upon Government waste lands were noticed by the Jamabandi Officer during the field inspection in the Tarikere and Kadur taluks during both the years, and fines imposed upon the trespassers. The two cases noticed in 1900-1901, involved encroachments upon so large an area as 74 acres, and the fines imposed amounted to Rs. 505.

11. *A and B Lists.*—There is no information on this point for 1899-1900. But in 1900-1901, revised lists for every village are reported to have been examined and ordered to be published in the respective villages.

12. *Inspection of Tanks and Tank Bunds.*—The number of tanks inspected by the Jamabandi Officers was 33 in 1900-1901 as against 35 in the year previous. Directions were issued by the Jamabandi Officers for turfing, carrying on earth-work and clearing weeds wherever such work was found necessary and wanting. They should satisfy themselves at an early opportunity whether their instructions have been actually carried out.

13. *Avenue Trees.*—Some vacancies in the avenue trees are reported to exist in the Tarikere and Kadur taluks. These should be filled up early.

14. *Vaccination.*—In 1899-1900 the work done was not good, owing to the prevalence of plague in the other parts of the State, and the fear entertained by the ordinary villagers that inoculation for plague would be practiced in place of vaccination.

The other work done by the Jamabandi Officers, such as the inspection of schools, dispensaries, &c., calls for no remarks.

Letter No. 262, dated 8th August 1901, from the Deputy Commissioner, Kolar district, requesting a further advance of Rs. 5,000 on account of test works.

2. Letter No. 278, dated 19th August 1901, from the same, reporting the result of inspection of the test work near Hebbani, on the 18th idem.

No. R. 1015-7—R. F. 5-1900, DATED BANGALORE, 26TH AUGUST 1901.

ORDER THEREON—As the Deputy Commissioner has reported that he has allotted the whole of the Rs. 5,000 placed at his disposal, in Proceedings No. 494-5—R. F. 5-1900, dated 16th July 1901, a further sum of Rs. 5,000 (five thousand) will be placed to his credit by the Comptroller. This will make a total grant of Rs. 10,000.

2. When such large gangs are working, it is essential that efficient arrangements should be made for the due measurement of the work turned out; and the Deputy Commissioner will at once take the required action and make the necessary arrangements in consultation with the Public Works Department authorities, for detailing the required numbers of Public Works Department officials for measuring the work promptly, correctly and well. A note in full, showing the description of work done and the quantity turned out, must be appended to the weekly progress report.

3. The result of the reduction of wages must be reported from day to day, and if it shows no appreciable effect within three or four days, the rates must be further reduced, so as to bring them to what has been prescribed in the Famine Code. The work on the Hebbani-Chikkere was completed, the whole costing less than the estimated amount.

4. The object of the Madras authorities in opening a relief work at a distance of 20 miles from the frontier is probably to have a good radius all around, so that the needy and necessitous of that locality only may congregate. Although it does not follow that we should regulate our action on principles of mutuality in these matters, yet it may be desirable to ascertain the restrictions, if any, which are observed in the admission to the Madras Relief works, and

also the rules and directions which have been issued for guidance. The Deputy Commissioner is requested to send a competent person, as early as possible, to study in detail the working of the Relief Camp and send a report noting the differences between the system observed by him and that followed by the British authorities. A critical study of the difference will be instructive and be attended with great advantages.

5. It is satisfactory to learn that, in the opinion of the Medical Officer, who inspected the gangs of laborers, they were deserving of relief although they were not very emaciated. It is hoped that proper and adequate sanitary and medical arrangements have been made.

The Eighth Annual Report on Rainfall Registration in Mysore for 1900, submitted by the Director of Meteorology in Mysore, with his letter No. 47, dated 12th July 1901.

No. R. 1043-51—R. F. 56-97, DATED BANGALORE, 30TH AUGUST 1901.

ORDER THEREON—The total number of rain-gauge stations in the State during the year was 195 or two less than that in the previous year. Out of these 195 stations, rain-gauges and glasses are supplied to 193, of which, 132 stations were inspected during the year, as shown in the margin, as against 73 in the preceding year. There has been thus a satisfactory increase in the number of inspections made during the year.

District.	Number of Stations.	Number inspected.
Bangalore	33	28
Kolar	24	19
Tumkur	35	30
Mysore	27	17
Hassan	19	15
Shimoga	22	16
Kadur	14	8
Chitradurg	20	8
Total ...	193	132

2. The heaviest rainfall recorded on any one day in each of the districts was as shown below :—

District.	Station.	Quantity of rain.	Date.
Bangalore	Solur	4·62	15th October 1900.
Kolar	Gold Mines	6·46	24th July 1900.

Kadur	Toll gate at Kottigehar	16·21	15th July 1900.
Chitradurg	Hosdurga	4·80	24th July 1900.

The largest quantity of rain recorded during the year was 349·82 inches, and this was, as in last year, at Agumbe in the Shimoga district. The smallest quantity was 10·02 inches at Doddabele in the Bangalore district.

3. As regards the discrepancies referred to in para 3 of the report, the Deputy Commissioners will explain why the figures published by Government

in the *Gazette* in accordance with the returns received from districts differ from those arrived at by the Director of Meteorology. Such discrepancies should not be allowed to recur.

4. The average rainfall for the whole State during the year 1900, was 39·46 inches or 10·54 inches more than the average for 1899, and 2·67 inches more than that for the past 31 years (1870-1900). The average fall in the districts was as shown hereunder :—

District.	Average for 1900.	Average for 1899.	Average for the past 31 years.
	Inches.	Inches.	Inches.
Bangalore	28·73	24·37	29·86

5. It is very interesting to note that the Director of Meteorology has this year adopted a new and additional mode of tabulating the rainfall according to the 27 Hindu "Nakshatras" or asterisms, and that he further intends to have the "Nakshatra" averages worked out for the past 10 years and included in the next report. Such tabulation is sure to be of great value and interest to the agriculturist.

6. The Director of Meteorology is requested to distribute copies of the report as usual and forward 12 more copies to this office.

EXCISE

Proceedings of the Government of Mysore,

No. 2074-83—R. F. 166-92, DATED BANGALORE, 2ND AUGUST 1901.

ORDER—The question of the settlement of the Inamdars' claim to the toddy revenue of their villages in Mysore has for some time past been pending the final decision of Government. In Proceedings No. 443-51—R. 69, dated 11th July 1893 an enquiry was directed into the claim of each Inamdar, and the attention of the Deputy Commissioners was specially called to certain main heads on which information was required. In a small number of cases reports were accordingly submitted for the orders of Government. The principle on which the claims should be settled not having been expressly laid down, the reports were not such as to enable Government to pass final orders without further enquiry Government are now pleased to issue the following rules for the settlement of the claims of holders of alienated villages to the several items of revenue from toddy in connection with their villages and their adjustment under each of the systems introduced since the year 1892-93. The Deputy Commissioners of Districts are requested to enquire either by themselves or by Assistant Commissioners under their directions, into all such claims in conformity with the rules and submit their reports to the Excise Commissioner in such form as will admit of his passing them on with his own opinion for the final orders of Government without directing a further investigation or calling for additional information.

RULES.

The Government of Mysore are pleased to make the following rules for the adjustment of the several items of revenue from toddy, connected with alienated villages, under each of the systems introduced since the year 1892-93 :—

SECTION I.—PRELIMINARY.

1. *Definitions.*—(1) Shop-rent is the amount of license fee for the right of vending toddy in an authorized shop, the amount being determined by the result of the auction sale of the shop.

(2) Grove rent is the amount realized by selling by public auction or by otherwise leasing the right of drawing toddy from the trees in a grove.

(3) Tree-tax is the fee charged for every tree from which it is intended to draw fermented toddy.

(4) Tree-rent is the price paid to the owner of toddy-yielding trees for allowing the licensees of shops or tapmen to draw toddy from them.

SECTION II.—THE FARMING SYSTEM.

2. *Payments to those entitled to Excise Revenue.*—Under the farming system which was in force for five years from 1892-93 to 1896-97, the proprietor of an alienated village who is entitled to Excise revenue from toddy shall get the whole of the rent of the "Shop Farm" or "Grove Farm" or of both, realized in his village, *minus* the proportionate cost of establishment charges at 6 per cent, and local cess payable to Government.

3. If his shop has obtained supplies of toddy from any Government grove or from the grove of any other alienated village, not separately sold as an independent "Grove Farm," a deduction should also be made from the above amount at the rate of four annas for each tree tapped for his shop. If the tapped trees belong to a Government grove, the amount thus deducted shall be credited to Government; or if they belong to another alienated village, it shall be paid to the proprietor of such village, the local cess thereon being credited to Government.

4. *Payments to those not entitled to Excise Revenue.*—The proprietor of an alienated village not entitled to Excise revenue from toddy, shall get only tree-rent on account of the "Grove Farm" sold in his village. As the "Grove Farm" includes both the farm-rent on account of the right of drawing or removing toddy from the trees, and the tree-rent on account of the ownership of the trees leased to be tapped, the toddy rent being payable to Government and *tree-rent to the proprietor* of the village, 4/5ths of the rent of the "Grove Farm" shall be credited to Government on account of the farm-rent or duty on toddy, and 1/5th only shall be paid to the proprietor on account of tree-rent.

SECTION III.—THE PRELIMINARY TREE-TAX SYSTEM.

5. *Payments to those entitled to Excise Revenue.*—Under the preliminary tree-tax system which was in force in the year 1897-98, the "Grove Farms" in alienated villages were, as a rule, not sold or leased by Government, the proprietors thereof being left to lease them to toddy vend-farmers or shop-keepers at such rates of tree-rent as might be privately settled by themselves, so that the whole of the amount levied by Government for the trees tapped in alienated villages, was credited under tree-tax, the tree-rent being recovered by the proprietors themselves. In such cases the proprietors entitled to Excise revenue from toddy, shall get the refund of the whole amount of tree-tax, as well as the shop-rent, if any, *minus* the proportionate cost of establishment charges at 6 per cent and local cess payable to Government.

6. If the shop has drawn supplies of toddy from a Government grove or from the grove in another alienated village, the adjustment shall be made in the manner laid down in para 3 above.

7. But in the case of certain alienated villages, the groves whereof were attached to particular toddy farms in the year 1896-97, the proprietors not having been allowed to lease their trees privately, for the year 1897-98, they will get for the year 1897-98 the same amount as is payable to them for the year 1896-97.

8. *Payments to those not entitled to Excise Revenue.*—In cases where the proprietors were not allowed to lease their trees privately, the arrangements which existed in the year 1896-97, having been ordered to continue for the year 1897-98, the proprietors shall get the refund of tree-rent calculated at four annas for each tree tapped in their villages *minus* local cess thereon payable to Government.

SECTION IV—TREE-TAX SYSTEM.

9. *Payments to those entitled to Excise Revenue.*—Where the proprietor of an alienated village has both a shop and a date grove in his village, and the trees in the grove are tapped for the supply of toddy only to the shop in the village, both the shop-rent and the tree-tax shall be payable to him, minus the cost of Government establishment at 6 per cent which shall be payable to Government, as well as the local cess on the tree-tax.

10. If trees in his village are tapped also for shops in other alienated villages *not entitled* to Excise revenue from toddy, or for shops in Government villages, or for both, the tree-tax of such trees, as well as the rent of the shops and the local cess on the tree-tax shall be payable to Government.

11. If the trees are tapped for shops in other alienated villages *entitled* to Excise revenue from toddy, the tree-tax of the trees shall be payable to such alienated villages, as well as the rent of the shops therein, *minus* the cost of Government establishment at 6 per cent which shall be payable to Government, as well as the local cess on the tree-tax.

12. Where the proprietor has only a shop in his village, the shop-rent shall be payable to him, as well as the tree-tax of the trees tapped for his shop either in Government occupied or unoccupied lands or in other alienated villages or lands, *minus* the cost of Government establishment at 6 per cent, which shall be payable to Government, as well as the local cess on the tree-tax.

13. Where the Inam is entitled to Excise revenue, but has only trees, the Inam should get an annual lump sum grant calculated once for all on the population in the village according to the most recent Census. As Government revenue is to Government population so should Inam Revenue be in relation to Inam population.

14. Where such Inam has no population at all, the Inam should get nothing beyond the rent, its sannad title to Excise revenue notwithstanding, and such rent shall be at such rate as may be settled between himself and the tapper.

15. Provided, however, that if the above trees have been attached to any particular shops from time immemorial, the trees will be leased by Government, as usual, to the licensees of such shops for tree-rent at a rate not less than four annas per tree per annum, to be payable to the owners thereof, the local cess thereon being payable to Government.

16. *Payments to those not entitled to Excise Revenue.*—In cases where the proprietor of an alienated village is not entitled to Excise revenue from toddy, he will be at liberty to lease his trees to the licensees of shops for the manufacture of toddy, for such tree-rent as may be settled between himself and the licensees of shops.

17. Provided, however, that if his trees have been attached or assigned to any particular shops from time immemorial, the trees in such groves will be leased by Government as usual, to the licensees of such shops, for tree-rent at a rate not less than four annas per tree per annum, to be payable to the owners thereof, the local cess thereon being payable to Government.

SECTION V.—GENERAL.

18. *Procedure for determining rights of alienated villages to Excise Revenue.*—The following procedure is prescribed for the guidance of the Deputy Commissioners of Districts for determining the rights of alienated villages to Excise Revenue from toddy :—

(1) When the investigation of a claim to Toddy revenue is taken up, the first point to be determined is, whether such claim is for Excise revenue only, or for tree-rent only, or for both.

(2) If the claim is for tree-rent only, a decision should be recorded according to the claimant's own admission that he is entitled only to tree-rent on account of the trees tapped in his village, but the local cess thereon should be made payable to Government.

(3) If, on the other hand, the claim is for Excise revenue only, or for both Excise revenue and tree-rent, the Inam Settlement and the Title-Deed should be the starting point. Where it is conclusively clear from the Inam Settlement Register that the whole Excise revenue, *viz.*, "Abkari" or "Panchbab," or only Toddy Excise has been conceded, the Inam Settlement should be adhered to. But when it is not so in consequence of ambiguous or doubtful words, such as "Eechal Pyru" instead of "Shendi" being used, the original sannad of the village and the beriz account of the year in which the village was alienated, should be consulted to ascertain whether the Excise on toddy was included in the assets of the total beriz which was alienated, and the finding should be duly recorded. The claim should only be admitted to the extent alienated, as established in each individual case.

19. If in any case, there has been no enjoyment of Excise revenue, within the twelve years preceding the year 1892-93, the circumstances connected therewith should be reported, with the Excise Commissioner's opinion, for the orders of Government.

20. Also, if there are any special cases, in which, notwithstanding the absence of sannads or recognition by the Inam Department, there has been an uninterrupted enjoyment for a period of not less than fifty years preceding the year 1892-93, the same should be specially reported, with the Excise Commissioner's opinion, for the orders of Government.

21. Pendency of claim before a Revenue Court is no interruption within the meaning of this rule.

22. Where it is clear that the Inam Settlement has not conceded the right to Excise revenue from toddy, the claimant should be awarded tree-rent only. But where it has been conclusively established that the claimant is entitled to Excise revenue from toddy, the finding should be duly recorded and the award made accordingly.

23. *Government reserve right to make addition to 6 per cent for Establishment charges.*—The Government reserve to themselves the right of making such reasonable addition to the aforesaid 6 per cent for establishment charges as from time to time they may consider necessary.

24. *Deputy Commissioners at liberty not to sell, or license shops in alienated villages.*—The Deputy Commissioners of Districts will be at liberty, under the provisions of Excise Laws, not to sell or license the shops in alienated villages, on the ground of there being too many shops, or for any other valid reason, the proprietors of such villages being awarded reasonable amount of compensation, calculated in the manner laid down in para 13 above.

25. *Alienees wish to compound wtih Government for lump sum payment.*—Wherever the proprietors of alienated villages entitled to Excise revenue are willing to compound with Government for an immediate payment not exceeding 20 times the net annual income from Excise revenue upon the average for the ten years, *i. e.*, of five years prior to 1873 and of five years ending 30th June 1896, the matter should be reported for the orders of Government.

26. *Revenue of alienated villages fluctuates as Government Revenue.*—The revenue of alienated villages must necessarily be a fluctuating item in the same way as Government revenue. But when once the claim is decided on its merits, the payment to be made to the claimant in each succeeding year would, under existing conditions, be a matter of mere routine.

27. *Cases not coming under above rules.*—Cases, if any, not coming within the purview of the foregoing rules, should form the subject of a special communication.

28. *Settlement of claims not to be delayed.*—The settlement of the claims of the proprietors of alienated villages to toddy revenue has long been delayed. The Deputy Commissioners of Districts will fix a reasonable time within which all such claims should be preferred and give due publicity to the same by a notice in the official Gazette. They should afterwards lose no time either by themselves or by Assistant Commissioners under their directions, in enquiring into all such claims and forwarding their reports to the Excise Commissioner in such form as would admit of his passing them on with his own opinion for the final orders of Government, without directing a further investigation or calling for additional information.

29. *How enquiry should be conducted.*—The record of the enquiry in each case, which, as far as possible, should be conducted in the manner laid down in Sections 201 and 202 of the Land Revenue Code, should accompany the report referred to in para 28 above, together with a calendar in the Form A hereto appended.

PETITION

Proceedings of the Government of Mysore,

READ—

Petition of appeal No. 97 of 1901-1902, from Hutchappa, School Master of Kalluru village, Gubbi taluk, against the order of the Deputy Commissioner, Tumkur district, stating that the sale of land No. 92 of Narawangala Amanikere village, for cutivation would be confirmed to the petitioner only if he paid the assessment on the land from the year (1900-1901) in which the sale took place.

No. PET.—252-9, DATED BANGALORE, 6TH AUGUST 1901.

ORDER THEREON—It appears from the order appealed against that the saguvali chit was issued at a time when the cultivation season was over and that the petitioner thereupon requested the Deputy Commissioner to levy the assessment from the ensuing year. The Government observe that the case under reference is one in which the Deputy Commissioner should have exercised the discretion given to him by para 17 of Rule XX of the Land Revenue Rules. The assessment on the land should be levied from the year 1901-1902.

Petition No. 2238, dated 28th April 1901, from Krishnappa of Tumkur, appealing against the order of the Deputy Commissioner, Tumkur District, regarding the sale of subdivision No. 4 of Survey No. 114 forming the bed of the Kaidala tank, Gular hobli, Tumkur taluk.

2. *Letter No. 11, dated 1st July 1901, from the Deputy Commissioner, Tumkur District, reporting on the above.*

Referring to your Official Memorandum No. Pet.—1748, dated 16th May 1901, forwarding for report with records the petition from Krishnappa, pensioned shekdar of Kyatsandra, Tumkur taluk, against the Deputy Commissioner's order confirming the sale of Survey No. 114—Part 4, forming the bed of the Kaidala tank, in the Gular hobli of the Tumkur taluk, I have the honor to state as follows :—

(2) The entire Survey No. 114 forms the bed of the Kaidala tank. This number was in 1894 subdivided into 4 parts and thrown open for temporary cultivation, *i. e.*, for a period of five years. The last phod, *viz.*, No. 114—4 measuring(dry 2 acres and 15 guntas, wet 25 guntas) 3 acres assessed at Rs. 12, was purchased by one Gopal Rao, and it was in his enjoyment till 1897, when it was sold for arrears of revenue. The sale finally stood in the name of the petitioner for Rs. 8 and a sale certificate was granted to him on the 26th February 1898.

(3) In June 1898, the Amildar reported to this office that the said 4 sub-numbers had been given out for temporary cultivation for five years beginning from 1893-94 and that the term would expire by 1897-98 (Hevilambi), and sought orders as to whether these lands might continue in the names of the then holders for another period of five years.

(4) Thereupon the Deputy Commissioner ordered that the lands be sold again subject to the condition of the purchasers giving up the lands whenever required by Government and without compensation. The four lands were accordingly sold, and No. 114—Part 4 in question has been purchased by one Adimurthappa for Rs. 28. It is against this sale that the petitioner now appeals to Government.

(5) The petitioner's contention is that, at the time the field was sold for the arrears of revenue in 1897, neither the sale proclamation nor the haraz patti contained any mention of the temporary nature of the occupancy of this land. But the shekdar, in his report of the 20th September 1897, sent to the Amildar immediately after the close of the sale,

stated that the term of five years would expire by June 1898, and consequently no proper bids were forthcoming at this sale (*vide* paper No. 38—enclosure 2 in the vernacular file); and in his subsequent report paper No. 38—enclosure 10, he has stated that, at the time the sale was held for arrears of revenue, he verbally informed the petitioner of the temporary nature of the holding.

(6) Mr. Narain Rao in his order No. 971, dated 11th February 1899, to the Amildar, states that the mere fact of the petitioner having purchased the land at the sale did not alter the nature of the land previous to the sale.

(7) The vernacular correspondence relating to the subject is herewith submitted, and the appeal petition with its enclosures, is returned.

3. The records of the case.

No. Pet.—390, dated Bangalore, 22nd August 1901.

Order thereon—This case affords another illustration of the inconvenience of the rule that land on which arrears are due should be proceeded against in the first instance; but whatever the applicability of the rules about forfeiture and sale may be regarding survey numbers, held on survey tenure, the provisions should not have been applied to the kind of tenure under consideration. For default of payment of the assessment put upon the land, proceedings should have been taken against the other property of the defaulter. The land was tank bed and had been expressly given for a limited term of five years subject to payment of an annual rent, at the end of which it should have been unconditionally surrendered. It was a temporary tenure and the incidents of transferrability or hereditability did not attach to it as is the case with the occupancy of lands held under survey tenure. It was a mistake to have sold the land for arrears. The purchaser has every right to complain that he was misled by the action of Government, especially when there was no notice of the terminability of the tenure, into believing that he was purchasing a land held on Survey tenure. Having committed the mistake of selling the land to petitioner, the Deputy Commissioner might have continued him in possession during the additional term for which the tank bed is to be made available for cultivation. It was wrong to have deprived him of the holding so soon after purchase and re-sold it. The sale of the land in question will be set aside and the land will be restored to petitioner for the further term applicable to the other lands in the tank bed.

2. All this confusion would have been avoided if the land had not been sold for arrears and a false impression thereby created in the minds of purchasers. In a similar case in Bangalore district the sale was countermanded.

Order—The Government having recently observed in several cases whic came up in appeal, that the orders passed by the Deputy Commissioners are not self-contained and do not contain a statement of facts, the attention of all Deputy Commissioners is drawn to Proceedings No. 4892-9—G. 137, dated 8th September 1881, and No. 6284-91—Pet. 544, dated 29th September 1893, (P. 90, Revenue Manual of 1901), and they are requested to conform to the instructions therein laid down.

Proceedings of Government No. 2526—P. 356, dated 20th September 1900, setting aside the order of the Deputy Commissioner, Kolar district, dismissing Ramappa, shanbhoggumasta of Kyasamballi, Bowringpet taluk, and directing his restoration to the office on the grounds that no charge was proved against him and that his explanation was not taken.

(2) Letter Camp No. 1065, dated 25th March 1901, from the Deputy Commissioner, Kolar district.

Adverting to Government Proceedings No. 2526—P., dated 20th September 1900, reinstating Ramappa as shanbhog-gumasta of Kyasamballi village in the Bowringpet taluk, and stating that the order of dismissal could not be maintained as his explanation was not taken, I have the honor to state that my predecessor, Mr. Sparkes, appears to have held his enquiry *in the presence* of Ramappa, while conducting the jamabandi of the Bowringpet taluk in 1899-1900.

2. It has been recorded (*vide* his orders dated 30th December 1899 and 4th January 1900) that there were several discrepancies in the "Khates" and "Khirdis" maintained by this official, and the amounts entered in the Raiyats' Patta Books, instead of being credited to the Khirdis on the same dates, appear to have been brought into the accounts long afterwards, virtually amounting to embezzlement of Government money. There appear to have been also other complaints against this man of receipts not being granted for the sums recovered.

3. Ramappa, though present all the time, never appears to have attempted to give an explanation, nor deny the allegations when the order of dismissal was passed in his presence.

4. Another case of fraudulent transfer of patta in 1897-98 appears to have been made by this gumasta-shanbhog, and the matter which recently came to notice is reported to be under enquiry by the Amildar.

5. In the face of these irregularities, and seeing that he is only a *gumasta*, and is in no way *related to the hakdar's family*, I consider it would be very inadvisable to re-appoint him on the simple objection that his explanation was not recorded, when it is a fact that he was present at the enquiry and had no *valid* explanation to offer.

6. I beg to state that I went into the records while conducting the jamabandi of the taluk during the current year. The present officiator Krishnappa is one of the hissedars of the shanbhogi office, and is the *next reversionary heir* to the registered widow Narasamma. He is a respectable shanbhog and keeps all his accounts well, and the Amildar reports that he is a quiet-going man, while the friction existing between the late gumasta Rammappa and the patel has always fostered the village factions and caused trouble to Government in the collection and other work.

7. The registered shanbhog Narasamma presented several petitions stating that Ramappa should continue as her gumasta but the reversionary co-sharers apprehended that if her wishes were complied with, the *hak* would pass out of the family. In the present case, however, the widow can have no reason to complain, as Krishnappa is willing to pay her the whole *potgi* in addition to allowing her to take away the produce of the inam lands which are in her possession. In Government Proceedings No. 2152—P. 76-1900, dated 4th September 1900, Government deemed it unnecessary to interfere and appoint a nominee of the registered widow so long as a subsistence allowance out of the potgi is paid to her.

8. I would recommend the matter to the kind re-consideration of Government.

9. Krishnappa is at present the registered shanbhog of one charge containing seven villages, and has applied to me to have these villages transferred to his son's name, who is reported to be competent for the work.

10. Krishnappa will have only the duties of one village to perform, as required in Government Proceedings No. 2821-3—R. 903, dated 27th September 1897, and No. 6630-37—Pet. F. 18-1900, dated 27th February 1901, and I request that it may be approved.

11. The vernacular file ending with Bowringpet Amildar's report No. 867, dated 20th January 1901, is submitted herewith.

(3) Records of the case.

No. Pet.—424, dated Bangalore, 26th August 1901.

Order thereon—Under the circumstances now brought to light, Government have no hesitation in dismissing Ramappa and appointing as gumasta Krishnappa, who is also the reversionary heir to the hak. Government are unwilling to recognise and give effect to arrangements that may be made between a hakdar and his gumasta about sharing the potgi. The resume given in Government Proceedings No. 2152—P. F. 6-1900, dated 4th September 1900, quoted by the Deputy Commissioner, should be taken only as a recital of the facts and not as implying recognition by Government of the agreement by the gumasta to pay potgi to the hakdar.

PRESENT:

V. P. MADHAVA RAO, ESQ., C. I. E.

AND

Appeal No. 8 of 1900-1901.

Appellant		*Respondent*
Siddalingegauda of Dandinasivara, Gubbi taluk.	*Versus*	Sidda, minor, by his mother and guardian Lingajamma.

Subject.

Appeal against the order of the Deputy Commissioner of Tumkur appointing the respondent as the patel of Hosur, a majre village attached to Dandinasivara in the Gubbi taluk.

Facts of the case.

In the Pateli Register of 1880-81, Siddegauda and Hosur Siddegauda are entered as the hakdars and Nanjegauda and two others as hissedars, the officiators being Siddegauda for the principal village (Dandinasivara) and Siddegauda for Hosur.

2. In March 1895, the respondent's mother petitioned the Amildar stating that her father-in-law Lingappana Siddegauda was the patel of Hosur till his death in 1893; and that her husband also died within two months of his father's death, and praying that her minor son Sidda might be registered as the patel of Hosur. The Amildar, who enquired into the matter, reported to the Deputy Commissioner that it appeared from the "To Register" of the taluk office for 1883-84 that there was a separate patel for Hosur in 1883 and that it appeared from the villagers' mahazar that Lingappana Siddegauda performed the duties as patel of Hosur till his death in 1893. The Deputy Commissioner thereupon directed that the respondent should be registered as patel of Hosur, a gumasta being appointed during his minority and that the potgi for Hosur should be fixed in accordance with the instructions contained in Proceedings No. 10267-75—R. 1055, dated 3rd January 1894.

Decision.

Government think that it has not been proved that there were two separate patels for the principal village of Dandinasivara and for the majre village of Hosur.

2. The entry in the Pateli Register of 1880-81 cannot be construed as implying the existence of two different individuals. The majre village has been absorbed into the principal village and Government do not see sufficient justification for their separation and for separate patels being appointed for them.

3. The Deputy Commissioner's order appointing a separate patel for Hosur is set aside.

4. Appeal allowed.

READ—

Petition No. 484, dated 6th September 1900, from shanbhog Gopalaiya of Gunderi, Holalkere taluk, appealing against the order of the Deputy Commissioner, Chitaldrug district, declining to grant him sub-division No. 1 of Survey No. 432 of Holalkere for cultivation, on the ground that it was included in the list of date groves.

(2) *Letter No. 622, dated 30th January 1901, from the Deputy Commissioner, Chitaldrug district, reporting on the above.*

With reference to your Official Memorandum No. Pet. 578, dated the 2nd November 1900, calling for a report on the petition of shanbhog Gopalaiya of Gunderi in the Holalkere taluk, who has appealed to Government against my order declining to grant him phod No. 1 of Survey No. 432 of Holalkere, for purposes of cultivation, I have the honor to report as follows :—

2. On the 16th May 1891, petitioner Gopalaiya applied to the Amildar of Holalkere for 1 acre and 38 guntas out of (a dry land) Survey No. 432 situated to the west of Survey No. 434, a garden in his holding, being separately phoded and granted to him for purpose of cultivation.

3. The application was forwarded to the shekdar for report. The shekdar reported that on the land applied for by Gopalaiya there were about 15 date trees each about three feet high and about 25 tender date plants, in addition to a few other small trees such as jali, &c., that the said land was included in the list of reserved date groves as the neighbouring land, Survey No. 415, on which there were numerous date trees had been reserved, and that the land applied for might be granted for cultivation.

4. The Amildar also personally inspected the land and reported to this office in July 1891, that the land applied for was included in the list of reserved date groves, that there were no date trees on it which were fit for being tapped although there were a few tender plants, that the land was fit for cultivation and that it might be phoded and granted to the applicant for cultivation.

5. The Amildar was thereupon directed to report the exact number of date trees fit for being tapped and the number of tender plants that stood on the entire Survey No. 432 and similar particulars regarding the date trees that stood on the portion actually applied for cultivation, out of the above survey number. The Amildar reported to this office that according to the list prepared by the shekdar who had personally inspected the land, there were on the entire Survey No. 432, one hundred and five date trees which were fit to be tapped and 237 tender plants, and on the two acres of land applied for out of the said survey number, there were 15 trees that were fit for being tapped and 25 tender plants.

6. The Amildar was then directed to personally inspect the land and report after careful consideration whether the land applied for might be granted for cultivation without prejudice to the Excise Revenue. The Amildar after personal inspection of the land reported that the date trees stood only on the northern portion of the land, that on about 4 acres there were but 15 or 20 date trees at some distance from one another, of which some were small trees, that from the situation of the land, he could see no objection to the sub-division of the land into two separate sub-numbers and to their being properly demarcated for the conservancy of date trees and that the land applied for was contiguous to the applicant's garden and capable of being also converted into a garden.

7. The General Assistant Commissioner was also requested in this office Yadi No. 663, dated the 9th February 1892, to inspect the land in question and report whether it might be granted for cultivation as recommended by the Amildar. The General Assistant Commissioner thereupon personally inspected the land and reported to this office that there were about 10 or 15 date trees on the portion applied for, that those trees were each about three feet high and there were a few tender date plants, and that the land in question was contiguous to the applicant's garden and it might be granted to him as prayed for.

8. On the 26th February 1892, the Amildar was directed to cause 2 acres of land out of Survey No. 432 to be phoded and submit the phod papers for sanction.

9. The Amildar thereupon requested Mr. D. Shama Rao, Assistant Superintendent of Revenue Survey, who was then in charge of the operations connected with the sub-division survey in the Holalkere taluk, to cause 2 acres out of Survey No. 432 to be phoded by his measurer and forward the phod papers.

10. The above requisition was complied with by the Assistant Superintendent of Revenue Survey and on the 18th April 1894, the Amildar, in submitting to this office the phod papers, requested that sanction might be accorded to the sub-division of the number that had been effected and to the grant of the land applied for to the applicant.

11. On the 23rd July 1894, orders were issued from this office to the Amildar, sanctioning the sub-division of the survey number and directing him that if there were date trees on the land applied for to take proper steps whilst granting it to the applicant. The original order runs thus " ಪೋಡು ಮಂಜೂರು ಮಾಡಿದ್ದೆ. ದರಖಾಸ್ತುದಾರನಿಗೆ ಜಮೀನ್ ಕೊಡುವದರಲ್ಲಿ ಕೇಂದಿ ಮರಗಳು ಇದ್ದರೆ ಕೃಷಿವರಿತು ಅವುಲೆಸಲ್ಲಿ ತನ್ನಿ." At the above sub-division of Survey No. 432, 2 acres and 19 guntas were formed into one sub-number and 7 acres and 27 guntas into another, of which the latter had been proposed to be reserved for the date grove.

12. On the 6th September 1894, the Amildar reported to this office that on receipt of the above orders the petitioner had been directed to submit a proper application for the land he wished to obtain and that the petitioner had accordingly submitted an application wherein he stated that the land he had applied for was contiguous to his garden, that he would apply for water-rate being imposed on it on account of water that would be required to irrigate it, that he had borne the cost of phoding and the erection of boundary marks, and that the land he had applied for might be granted to him, a price being fixed for the few date trees that stood on it, which he was prepared to pay.

13. On the 20th September 1894, orders were issued to the Amildar by Mr. C. Sreenivasiengar, the then Deputy Commissioner, that as the revision of the lists of reserved date groves was in course of being effected, the application for the land might lie over till the said revision, as the question of granting the land for cultivation had to be considered only afterwards. This order was duly communicated to the applicant by an endorsement issued from the taluk office.

14. On the 18th February 1898, the petitioner presented an application to this office praying that as the land that had been phoded at his request was not included in the list of reserved date groves and as there were no date trees on it which were fit for being tapped, the said land might be granted to him.

15. Thereupon, a yadi was addressed to the Excise Assistant Commissioner requesting him to personally inspect the land in question and report to this office whether it might be granted to the applicant for cultivation.

16. On the 7th June 1898, orders were also issued to the Amildar to report as to the exact number of date trees standing on the portion of land that had been phoded. The Amildar then requested the Excise Supervisor of the Circle to cause the date trees on the land to be properly enumerated and intimate to him the exact number.

17. In the meantime, the Excise Supervisor reported to the Excise Assistant Commissioner that he had seen the land in question, that there were already some small date trees on it and other plants were also just then springing up and that, in his opinion, it was not proper to grant that land for cultivation.

18. On the 4th October 1898, the Excise Assistant Commissioner reported to this office that he had personally inspected the land applied for, that it was close to the land in the holding of the applicant and was situated in the midst of lands under cultivation and forming a curved portion of the date grove, that there were not also many date trees on it, and that the said land, which was two acres in extent and appeared to have been already phoded, might be granted for cultivation, subject, however, to the condition that the applicant should protect the date trees standing thereon.

19. On the 22nd December 1898, the applicant Gopalaiya presented a petition to this office praying for early orders. The Amildar was thereupon directed to submit early the original records connected with the case. In March 1899, the Amildar reported that the Excise Supervisor, who had been requested and to whom three reminders had been issued to cause the date trees on the land in question to be enumerated and report their exact number, had failed to comply with the request and hence there was delay in the submission of the records. The Amildar was then directed to cause the date trees to be properly enumerated by the shekdar and report their number early. The shekdar reported to the Amildar on the 16th March 1899 that it was not clear to him from the orders he had received whether he had to count the date trees standing on the first or the second portion of the Survey No. 432 of Holalkere and that he had, however, counted the trees standing on both portions of the land. According to this report, there are on the first portion (the portion applied for cultivation) 17 big date trees of which some have been already marked by the Excise Department, 26 date trees which might become fit for being tapped three or four years hence and 97 very tender plants. On the other portion of Survey No. 432, there are according to the above report, 270 big date trees which might be tapped now, 200 date trees which might yield toddy two or three years hence and about 300 tender plants of which some might yield toddy five or six years hence.

20. On receipt of the above report from the Amildar he was directed to report whether the land in question was going to be included in the revised list of reserved date groves.

21. On the 29th July 1899, the Amildar requested the Excise Supervisor to intimate to him whether the land applied for by the petitioner would be included in the list of reserved date groves that was under revision. On the 7th June 1900, the Supervisor stated in reply that there were on the land applied for by the petitioner, date trees already fit for being tapped and there were also tender date plants which were likely to grow well in course of time, that, in the neighbourhood of this land, there were numerous date trees and that for the above reasons, the entire survey number (of which a portion has been applied for by the petitioner) had been included in the revised list of date groves.

22. On receipt of the above communication, I ordered that the application for the land should be rejected as it was included in the revised list of reserved date groves.

23. It is against this order that the petitioner has appealed to Government.

24. As regards the truth or otherwise of the statement of the appellant that the land in question was in 1891 ordered to be given for cultivation after being inspected by two Amildars and the Assistant Superintendent of Revenue Survey, upon which point I have been called upon to report specially, it will be seen from the above paragraphs that upon personal inspection of the land by two Amildars, and by the General Assistant Commissioner, the then Deputy Commissioner, Mr. Tirumalachar, ordered in February 1892 that Survey No. 432 should be subdivided (with a view to a portion of it being granted to the applicant) and that in July 1894 an order was issued from this office (Mr. Mir Kamaludin Ali Khan signing for the Deputy Commissioner) sanctioning the subdivision and ordering that the land might be granted for cultivation (*Vide* original order quoted in para 11 above). It is not clear from the records whether the Assistant Superintendent of Revenue Survey had actually inspected the land.

25. The vernacular records relating to the subject are herewith submitted and the petition with its enclosure is also returned.

26. I am very sorry to acknowledge that there has been a delay and a want of method in disposing of this matter, which is certainly not satisfactory ; but my own share of it is, I beg at the same time to say, not much. When the matter came under my notice, the list of survey numbers reserved for the Excise Department, as toddy groves, was being revised and until the result of that revision was known, no final orders could be passed. As soon as it was found that the whole number was reserved, the petitioner was informed of it. The case appears, however, to be a peculiarly hard one, and as the land is proposed to be irrigated and made into a garden, I do not see why it should not even now be granted.

(3) *Letter No. 5377--275, dated 15th April 1901, from the Excise Commissioner.*

In reply to your letter No. 6818—Pet. 1282, dated 6th February 1901, I have the honor to state that Phod No. 1 of Survey No. 432 of Holalkere therein referred to, is reported to contain 17 large date trees which have been licensed and marked by Excise officials for drawing toddy, 26 date trees which will become fit for tapping three or four years hence, and 97 date plants ; and the remaining portion of Survey No. 432, 270 large date trees now fit for tapping, 200 trees which will become fit two or three years hence, and 300 young trees some of which will become fit to be tapped five or six years hence. Thus it is clear that the whole of Survey No. 432 contains a flourishing date grove. Consequently the whole of it has been included in the list of Date Reserves carefully prepared and submitted on 30th March 1895, by the then Deputy Commissioner, Mr. C. Sreenivasiengar. It adjoins Survey No. 415, which contains also a valuable date grove reserved for the purposes of toddy revenue. Under such circumstances, I am of opinion that the whole of it should continue to be reserved for the purposes of State Toddy Revenue.

2. The enclosures are herewith returned.

(3) Records of the case.

No. Pet.—455-63, dated Bangalore, 31st August 1901.

Order thereon—This is an extraordinary case and exemplifies how conflicting views of the District Officers, not to mention the views of different Departments, result in loss of revenue to Government and annoyance and loss to private individuals.

2. The man applied for the land in 1891. There were not many toddy trees on it and the plants were only three feet high and, in addition, there were 25 tender plants. It is now ten years since the application was made and it is no wonder the plants have grown into trees. The land is capable of being

turned into a garden and the Government has lost the revenue of ten years, and the applicant has been denied the benefit of the land for that period. He has undergone the expense of getting the land phoded and boundary marks put up. The land will therefore be granted to him. Government will not be a loser. Since the introduction of the tree-rent system, it will be the interest of occupants to preserve the trees in their holding. Instead of keeping land on which there may be date groves out of cultivation, it is desirable that lands on which there is not a well defined grove should be freely given out on darkhast. The malki will yield an appreciable revenue and as there will be no motive for the trees being cut down, they will also bring in a good Excise revenue. The trees in cultivated land will be better taken care of and yield more toddy than trees situated in reserved land.

3. In the present case, a reasonable price, not a prohibitive rate, may be put on the trees and they and the land given to applicant.

Appeal No. 13 of 1900-1901.

		2. Hutcha.
		3. Kadira.
		4. Sibi Dodda.
		5. Danavina Dodda.
		6. Lakki, daughter of Siga.

Subject.

This is an appeal against the decree of the Deputy Commissioner of Tumkur, dismissing the plaintiff-appellant's claim to the toti office of Nandihalli in the Gubbi taluk.

Facts of the case:

The plaintiff-appellant claims a half share in the toti hak in question, on the ground that he was the grandson in the male line of Kadara entered in the Toti Register of 1864-65 as a half sharer.

2. The Assistant Commissioner who tried the suit held that the claim was proved, and decreed possession of the office to the plaintiff for one year in a period of four years, the defendants 1 to 5 having possession for two years, and the 6th defendant, who is the granddaughter of Kadara, having possession for one year. The Deputy Commissioner on appeal dismissed the suit, as in his opinion the plaintiff had not satisfactorily traced his descent from Kadara.

Decision.

It is clear so far as the facts recorded (which are not either full or conclusive) go, that Dasa, appellant, is not son of the Lakka who had a half share in the toti service jointly with Siga as recorded in the Toti Register of 1864. It is probable that appellant's father Lakka known as Bellavi Lakka was different from Kadira's son Lakka whose name is entered in the above register.

(2) Appellant's claim has been rightly disallowed by the Deputy Commissioner in appeal.

Appeal rejected.

Petition No. 574, dated 3rd September 1899, from Buddu Hanumaiyan Timmanna and other raiyats of Kattigenahalli, Tiptur taluk, complaining of the adoption of coercive measures to recover from them Rs. 186 towards the cost of the earth-work, &c., executed to Kattigenahalli tank.

(2) Letter No. 691, dated 22nd January 1901, from the Deputy Commissioner, Tumkur district, reporting on the above.

2. This tank, which was brought up to standard by the Public Works Department in 1892 at a cost of Rs. 6,537, and on which both the Kattigenahalli and Birasandra lands are dependent for their irrigation, has an achkat of—

	A.	g.	Assessment. Rs.	a.	p.
Wet	0	37	5	8	0
Garden	59	9	848	15	0
	60	6	854	7	0

the tank is also situated above the railway line. Its maintenance devolves on the raiyats of the said villages under the Tank Maintenance Rules of 1873.

3. The omission of the raiyats to maintain the tank in order having been brought to notice in 1896, they were more than once called upon by the taluk authorities to do the necessary earth-work and turfing, but in spite of the written notices, they flatly refused to do any work to the tank. On the contrary, they stated that such works should be done by Government. Their attitude was analogous to that of the raiyats of the Kibbanhalli and Biligere villages, regarding which I have reported in my letter No. 469, dated the 21st November 1900.

4. In August 1897, I issued orders to the Amildar to cause the raiyats to execute certain repairs which were most urgently needed to save the tank from breaching during the rains. The Amildar's written notices were again unheeded by the raiyats.

5. Thereupon, I sanctioned an estimate for the repairs required, amounting to Rs. 725. It included a sum of Rs. 82 spent by Government in filling up the hollows and the bad leakages in the bund, caused by rains about September 1897. This estimate had subsequently to be revised owing to certain additional repairs which were absolutely called for. Thus the total estimate sanctioned was for Rs. 819 and work to the extent of Rs. 373-3-6 has been executed up to date. The remainder of the work is in progress and the Amildar has been directed to push on with the work as quickly as possible. A sum of Rs. 30-1-0 has been recovered towards the estimate and coercive processes are being adopted for the recovery of the remainder.

(3) The records of the case.

No. PET. 464-72, DATED BANGALORE, 31ST AUGUST 1901.

ORDER THEREON—The records do not show what led the Deputy Commissioner to order action to be taken in regard to repair being executed to the tank. The tank is said to have been brought up to standard in 1892. Has the Deputy Commissioner insisted upon a register being opened under the rules of 1873? Have the village, taluk and district authorities inspected the tank every year as required by the rules and taken steps to get any defects that may have been brought to notice, rectified. Government view with displeasure these spasmodic efforts of the district authorities to enforce the statutory liabilities. There is nothing in the records to show that the responsibility of the raiyats in regard to maintaining the tank, had been insisted upon from year to year.

2. It is a question if the Inspection Register in Form A, prescribed in the Rules of 1873, has been maintained for this tank at least from 1892, the year in which it was brought up to standard and that the different taluk and village officers had inspected the tank and satisfied themselves that its maintenance had

been attended to as required by the Rules. It does not speak well for the way in which the administration of the district is conducted, that the responsible officials both in the taluk and district should neglect the enforcement of rules about tank maintenance for four years consecutively and wake up in the fifth year and call upon the raiyats to do work, which, owing to continued inattention, had grown beyond their competence both physically and as regards cost to cope with effectually. Government do not consider it fair to charge the raiyats with all the charges that have been incurred on the maintenance.

3. The Deputy Commissioner is requested to inspect the tank and report to Government what proportion of the cost it is equitable to levy from the raiyats. If all the lands are garden and have been highly assessed, the fact may be considered in assessing the cost to be recovered.

4. Deputy Commissioners will devote a separate section in the Annual Administration Report to the condition of the tanks brought up to standard and specify the number which have been inspected by Jamabandi Officers and those in regard to which the register prescribed in the Rules of 1873 have been maintained and the liabilities of the raiyats, enforced.

FOREST

Proceedings of the Government of Mysore,

READ—

Note by the Conservator and Forest Secretary, dated 25th July 1901, suggesting that, in respect of existing State Forests where inadequate provision has been made for the use of ways or water, an enquiry should be instituted and permission to use such ways or water-supplies as are absolutely required in public interests should be granted and notified by the District Forest Officer concerned under Section 26 (c) of the Forest Regulation.

No. 64-5—444-5, DATED BANGALORE, 2ND AUGUST 1901.

ORDER THEREON—The Government agree that, as concerns State Forests notified as such under Section 23 of the Regulation, action should be taken as suggested by the Conservator, but without prejudice to any further enquiry and settlement under Section 23 which may hereafter be deemed advisable. The definition of such ways in State Forests as the public may, for the time being, be permitted to use is of importance as much in the interests of the people themselves, in connection, for instance, with trespass under Section 24 (*a*), as in the interests of forest conservancy and fire-protection, which are at present in some cases rendered most difficult by the unauthorised use of a great number of foot-paths, cattle-tracks, &c.

2. Government accordingly direct that the District Forest Officer, acting under the Deputy Commissioner's instructions, shall carefully enquire what ways and water-supplies in each State Forest should be provided for the use of the public generally or for adjacent villages in particular. The number of ways, however, granted, should be strictly limited to the actual requirements of each case. Present practice should not, as a matter of course, be taken as a basis for what is probably required in future. In many small forests or plantations no ways may be required. And in larger areas only such ways should be granted as are absolutely necessary or serve the convenience of large villages or groups of small villages.

3. Deputy Commissioners are requested to forward from time to time, as the enquiries are completed for each taluk, particulars of the ways or water-supplies the use of which it is proposed to allow in each State Forest. After approval by Government, the list of ways, &c., allowed will be notified by the District Forest Officer in the *Mysore Gazette*, and in the neighbourhood of each forest concerned. In the case of ways, the record should specify* for each where it enters and leaves the forest; its length and direction approximately; whether it is to be used by persons only, or also by cattle, carts, &c., and other necessary particulars. But the use of any way granted should not be limited to particular persons or villages.

SAMPLE SCHEDULE.

The undermentioned ways are allowed within the State Forest:—

1. Cart-track from Karattampatti to Naduvalur, six yards wide and about five furlongs in length, and open for people, cattle and carts. It enters the block at the north-east corner of Survey No. 306 of Naduvalur village and leaves it a chain south-east of cairn No. 3.
2. Cart-track from Karattampatti to Kottattur, six yards wide, and about seven furlongs in length, and open for people, cattle and carts. It enters the block at cairn No. 39 and running north-east close to the south-east corner of Survey No. 198 of Naduvalur and to cairn No. 8, leaves the block seven chains south-west of cairn No. 14.

3. Foot-path from Karapadi to Kaladivalavū and Valetotam. It enters the State Forest about six furlongs north-west of cairn No. 2 at a point where the main State Forest line turns north-west, runs west by south and then west by north for about two miles and quits it at cairn No. 87.
4. Foot-path from Karapadi to Kambalai. It enters the State Forest midway between cairns Nos. 6 and 7, runs south by west for about six furlongs and quits it about a furlong east of cairn No. 67.
5. A way to the undermentioned shrine will be admitted as follows for the use of the worshippers and others :—

Name of the shrine.	Situation.	Access to the shrine.
Muniappangudi.	Situated about one and a-half furlongs north-west of Kambalai village.	By a foot-path, four feet wide, for people only, branching from that in item 4 *supra* about half a furlong north by east of its point of exit from the State Forest and running west for about a furlong to the shrine.

Note, dated the 14th May 1901, by the Conservator and Forest Secretary, representing that, if forest reservation is taken up on a somewhat extensive scale, the services of a Special Forest Settlement Officer will be needed; and recommending the employment of Mr. B. Ramaswamy Iyer, Assistant Conservator of Forests, on this work after Mr. G. E. Ricketts' return in August 1901.

No. 71-2—491-2, DATED BANGALORE, 5TH AUGUST 1901.

ORDER THEREON—Government are satisfied as to the necessity for temporarily deputing an officer solely on forest settlement work, and accordingly approve the proposed deputation of Mr. B. Ramaswamy Iyer, who will, for the present, be employed in the Chitaldrug and Kadur districts with head-quarters at Tarikere.

2. The Deputy Commissioners concerned will arrange that the requisite local assistance in the matter of Forest establishment, including surveyors, be given from time to time to Mr. Ramaswamy Iyer; and in communication with the Conservator of Forests, will provide funds from the Forest budget for contingent and other expenses.

3. The following establishment may be temporarily entertained so long as the Assistant Conservator is employed on forest settlement work, the cost being met by re-appropriation from sanctioned items in the Forest budget :—

(i). 1 clerk on Rs. 20—25.
(ii). 2 peons on Rs. 7
(iii). 1 laskar on Rs 7.

Letter No. 494, dated the 27th May 1901, from the Deputy Commissioner, Kadur district, requesting to be informed, with reference to Government Proceedings No. 742-9—Ft. F. 5 98, dated the 13th May 1901, whether any forests have been assigned to the different villages, and, if not, whether any are likely to be assigned within any reasonable time.

No. 143—810, DATED BANGALORE, 23RD AUGUST 1901.

ORDER THEREON—The orders of Government issued from time to time, as noted in the margin, specify clearly that unless a particular forest tract has been assigned or allotted to a village, the raiyats of that village cannot *claim* any rights or privileges in the tract concerned. That the forest now in question, namely, the Haruvanahalli district jungle, has not yet been so assigned or allotted to Kondenhalli and other villages, seems abundantly clear. The point, therefore, for consideration is whether any such assignment or allotment should now be made, as, in its absence, the permission given by the Amildar without any enquiry into the capabilities of the forest, into the "mamul" which has hitherto prevailed, and into the rights of other villages more closely situated, was unauthorized and irregular. Government in their Order No. 742-9—Ft. F. 5-98, dated 13th May 1901, under advertence, did not approve of the Deputy Commissioner's *dictum*, that questions such as those arising in the present case should not be dealt with until the larger question of the assignment of village forests throughout the whole district had been considered. This would be a work of some magnitude and, as already pointed out, must necessarily take considerable time. In the meantime, as cases arise, they must be enquired into and settled on their own merits apart from the question of general assignment.

The following Note, dated 5th August 1901, by the Conservator of Forests :—

Note on the sources of Engine Wood-fuel Supply for Bangalore and for Public Works, Mills, &c., in the vicinity.

This question has latterly become a somewhat crying one, owing to the destruction of some sources of supply and the great impoverishment of others. Restriction in the quantity of fuel available for the market has naturally resulted in a rise of prices which, within the past year, has been very marked. This, again, has occasioned an outcry on the part of the milling interest, the distillery, the Public Works Department (Hessarghatta Water Works), and other consumers of engine fuel. It is apparently supposed that because there is a State Forest Department, it is the business of that Department by some means or another to supply fuel at once. This is, of course, a mistake. The primary business of the Forest Department in this matter is to provide, by well-known methods of forestry, for the natural production in the forests of the greatest quantity of wood fit for fuel. Actual supply to the market or to the Public Works Department is a secondary matter, necessarily depending mainly on the question whether fuel exists in the forests at all. This does not seem to be in all cases properly understood. Neither is it understood that if fuel reserves, such as those of the Channapatna taluk, are to be worked on a rational system so that thay may be made to furnish not merely the greatest quantity of fuel they are naturally capable of producing but to furnish that maximum regularly and perpetually from year to year, restrictions on past practice must be enforced. These restrictions are absolutely necessary; and the attempt to enforce them for the first time has resulted in pressure being brought to bear on the local Forest officials which they cannot easily resist. It seems necessary then to review the general position so that Government may pass such orders as they may deem required.

2. In this Note I propose to deal mainly with the supply of engine fuel from State Forests, which are the only forests under the direct control of the Forest Department, and which alone can be regarded as really permanent sources of supply. It may be noted that if engine fuel, in billets of from 3 to 8 inches in thickness, is produced, a great quantity of small fuel suitable for the Commissariat Department, for bakeries, &c., and for domestic consumption will at the same time be available. At the present time, the requirements of Bangalore in small fuel are met for the greater part from district forests under licenses issued by the taluk officials and from village and private lands in the vicinity. The private lands include a small and rapidly diminishing number of casuarina plantations which furnish engine fuel; but such private plantations may for present purposes be neglected. The stocks they contain, or are likely in the near future to produce, are relatively small. A good deal of the steaming fuel has hitherto been railed to the Kolar Gold Fields; and no doubt the introduction of electric power on the Fields may result in a certain, but I believe relatively a small, quantity of engine fuel from this source finding its way to Bangalore. For the same reason, and if prices in Bangalore continue to rise, engine fuel of good quality may hereafter be imported to Bangalore from the forests of the Berikai Zamindari of the Salem district adjacent to the Bowringpet taluk.

3. The sources of wood-fuel supply from the Mysore State Forests may be grouped as follows :—

(*a*) Natural fuel forests near the railway lines in the Kolar and Tumkur districts.

(*b*) Casuarina plantations of the Bangalore district, and other casuarina plantations in Kolar and Tumkur, situated near the railways.

(c) The Closepet group of State Forests.
(d) The large State Forests of the Kankanhalli taluk, and also certain fuel reserves, so called, in that taluk.

4. In group (a) may be mentioned the Kamasandram State Forest of the Bowringpet taluk. This forest of 15,000 acres is managed under a regular working plan the provisions of which have been prescribed for a term of years. The fuel, for which the Forest Department realises Re. 1 per ton, is consumed at the mines and on the railway from Bowringpet to the Fields. Practically none of the fuel from this and the adjacent Berikai forests finds its way to Bangalore. Another possible source is the Devarayadurga forest near Tumkur, 53 miles by road and rail from Bangalore. Only a portion of the supply is at present used locally; and the Public Works Department, on the ground of distance and expense, have declined to bring fuel to Soldevanhalli from this forest. It is probable, judging from correspondence with the Madras Railway Company regarding the relative prices of coal and wood-fuel at Bowringpet, that, for engine purposes, coal would be cheaper in Bangalore than fuel obtained from these forests.

5. The second source of supply, the casuarina plantations, consists of plantations of pure casuarina and of casuarina mixed with sandalwood. The pure casuarina plantations (State Forests) of the Bangalore district have recently become mature and are now worked out. So with many of the "pure" Government plantations of the Kolar and Tumkur districts and with almost all the private plantations near Bangalore. This mainly accounts for the recent sharp rise in prices which reached their maximum a few days ago when standing dry casuarina trees were sold by the District Forest Officer, Bangalore, at the rate of Rs. 14 per ton. This rate is certainly in excess of the cost of an equivalent (steam-producing) quantity of coal brought to Bangalore by rail. In the three districts concerned there is a considerable area under casuarina mixed with sandalwood. These plantations are those which were formed on fairly good soil. Regarded as sandal plantations, they are the finest in the Province or elsewhere. The growth and health of the young sandalwood plants is maintained solely, so far as is at present known, by the admixture of the casuarina which has thus become a species secondary in value but of which the conservation in the interests of the sandal revenue is essential. Consequent upon the great demand for fuel, an attempt was made to slightly thin out the casuarina so as not to cause injury to the sandalwood. The operation at best is a doubtful and delicate one. The necessary expert supervision is not always available, and the attempt to thin caused injury to the sandal. The Inspector General of Forests (India), who recently inspected one of the plantations operated on, agreed with me as to the unwisdom, to use no stronger word, of attempting to provide temporarily for pressing necessities in engine fuel by endangering the very existence of the sandalwood, upon the growth of which the financial success or failure of the plantations depends. Orders were therefore issued to the Forest Officers that only (1) mature or dead casuarina trees in "pure" plantations and (2) only dead trees in "mixed" plantations were to be felled; and that such trees were to be held at the disposal, in the first instance, of the Public Works Department for the water works. It is advisable from the cultural and financial standpoints to maintain these orders. But, so far as can be judged at present, the plantations can only furnish an uncertain and indeterminate yield in casuarina wood, and this yield even will cease altogether within the next ten years or thereabouts.

6. Financially, the casuarina plantations, whether Government or private, have proved a failure. When first formed, great expectations were entertained; and, as is well known, private enterprise followed in a considerable scale the lead given by Government. But the tree is not really well-suited to the Mysore plateau where the height above sea-level is too great and where the soil is often quite unsuitable. As compared with the low-lying plantations of the Madras Presidency, on sandy soil or near the sea, the casuarina tree on the Mysore plateau is expensive to introduce, grows slowly, attains generally small dimensions and dies when young. It does not reproduce itself naturally; so that, after an interval of from 20 to 30 years the plantations cease to exist. Many of the Government plantations formed by Amildars are situate on very inferior soil (where the villagers did not object to the reservation of the land) and must have failed, financially, in any event. Taken generally, the initial cost of the plantations *plus* the maintenance charges, compared with the net revenue derived from the sale of the wood, give results which would probably not justify Government in re-forming the plantations when the trees die off. The best proof of this can be seen in the action of private parties. Private plantations were formed more cheaply and often on better soil than Government plantations. Lands were taken up and planted by private individuals on a large scale; but, as is well known, even when monetary loss did not ensue, the profits were usually very meagre, not much more than covering the outgoings, including the land assessment. The consequence is that new planting is now rarely done, except on small plots, and not as a speculative investment. The case of the Government sandal-bearing casuarina plantations is, however, different. Because if, with the aid of the casuarina, the sandal plants can be brought to maturity, the plantations will not merely recoup the charges incurred but be very profitable.

7. The third source of fuel supply, the Closepet group of forests, is by far the most important for all purposes at Bangalore. The group includes the scrub jungles of the Channapatna taluk together with the four outlying forests of Savandrug, Ragihalli, Banantimari and Kabbaldrug. The total area is about 150 square miles. They are mixed

forests of hard and soft woods and are, in all respects, admirably suited for exploitation for fuel and small timber for house-building and similar purposes. None of them have ever been worked on scientific principles, and all, with the exception of portions of Savandrug, Handigundi and Kabbaldrug, have been over-worked and are now practically denuded of fuel fit for steaming purposes. The construction of the newer road to Mysore and still more the opening of the railway line, both of which traverse the centre of the group, gave rise to a great drain on the forests. Even then, however, had the forests been subjected strictly to a simple scheme of management, the present scarcity of fuel would not have been felt. For years the railway was supplied with engine fuel at Closepet, and other forests were worked at hap-hazard for the mills and other consumers at Bangalore. No provision was made to specially protect areas felled over; only the best hard-woods were removed, thus tending to encourage the growth of soft woods; and no thought was taken of a sustained yield or a permanent supply for future years. The inspections of Colonel Walker and myself showed that, in most of the forests, all cutting should be put a stop to; and it seems desirable that Government should, in view of the demand on the forests, issue orders with a view to regularise work and prevent further damage.

8. A good sylvicultural plan of management, providing for all requirements, would be very simple.

(*a*) Each forest, or, in the case of small forests, a group of two or three, to form one "working-circle."

(*b*) Each working-circle to be subdivided into 20 compartments of approximately equiproductive capacity.

(*c*) One, and *only* one, compartment to be felled over each year; so that, at the close of the felling rotation of 20 years, the working-circle would comprise a regularly graduated series of wood-crops aged from 1 to 20 years.

(*d*) All the trees and brushwood, small and large, in the compartment allotted to the year concerned, to be clean-cut close to the ground level, with the exception of—

(i) About 30 to 40 well-formed "Standards," preferably of the reserved or valuable kinds, which would be retained for a further period of 20 years in order to provide timber for construction;

(ii) all sandalwood trees;

(iii) such trees or shrubs growing near sandalwood trees as should be retained with the object of protecting or improving the growth of sandalwood in its younger stages.

(*e*) Each compartment, after it is felled over and the wood has been removed, to be closed to grazing and browsing animals for a period of five years; unless in time of famine or general distress or for some special and temporary reasons.

(*f*) Special effort to be made to protect each compartment from fire for a period of five years after felling.

(*g*) In the case of two or three rapidly-growing soft woods, *e. g.*, pachari (*Dalbergia paniculata*) stems may be felled at the middle of the felling rotation, *i. e.*, in the crop aged ten years.

9. The advantages of the foregoing simple plan of management are that the yearly output of wood would be strictly limited to the annual production and that, some years hence, the average annual output would be greatly increased. Under present conditions, as each tree is felled while still quite young, the possible wood-producing power of the forests is only very partially utilised. Furthermore, the effect of cutting only hard-woods has been to increase the proportion of soft-wooded trees. Assuming the total wooded area of the forests in this group to be 120 square miles, it may be anticipated that, when the working scheme is in full operation, the felling of 6 square miles annually would yield at least (at the rate of 5 tons per acre) 11,500 tons of large wood and 7,500 tons of small fuel. And the yield per acre might be larger, up to 7 tons or even more.

10. The fourth group of forests comprises the three great State Forests (area 117 square miles) and 14 fuel reserves (area 66 square miles) in the Kankanhalli taluk. The greater part of the State Forest area is too remote to render the export of fuel profitable at present prices. But from several of the so-called fuel reserves, which are at present managed by the taluk officials, a certain quantity of firewood and charcoal is forwarded to Bangalore. The distance, however, is considerable and this is not, at present, an important source of supply. Arrangements are now contemplated whereby the fuel reserves will be specially protected under the Forest Regulation, and be worked under the District Forest Officer's orders on a plan of management identical with that described for group III. With protection and a further rise of prices in Bangalore, this source of supply may become important.

11. To meet the immediate needs of the Water Works Pumping Station in engine fuel, the partially stocked forests of Kabbaldrug and Savandrug, mentioned in para 7, will be drawn upon under the system of work described. The Handigundi forest, where the Public Works Department contractors are now working, will yield a sufficient supply for some months to come. Thereafter, I propose to place at the disposal of the Public Works Department such engine fuel as may be available. The price charged would be the actual cost incurred by the Forest Department in cutting, carriage, stacking and

delivery at the nearest railway station *plus* a fixed royalty at the rate of Rs. 2 per ton of 68 cubic feet for fuel of required dimensions but of every kind. If the Public Works Department does not require the wood, the available outturn will be disposed of otherwise to the best advantage. Preference should perhaps be given to the requirements of the Government Distillery.

12. The Public Works Department appears to be under the impression that the price now paid by it for engine wood-fuel delivered at Soldevanhalli, namely, Rs. 8 per ton, is high. For many years, however, this was the rate paid by the Railway Company for wood-fuel delivered at Closepet. In the latter case the fuel, it is true, was composed only of hard-woods; while in the former the fuel comprises all kinds of wood and therefore the average quality for steaming purposes is lower. But the price paid by the Public Works Department includes cost of carriage and free delivery, which must go far towards compensating for the decline in quality. Even at the present rate of Rs. 8 per ton, the Public Works Department has recently reported that it will be cheaper to use coal at Soldevanhalli. As the price for first class engine wood-fuel is likely to increase for some years to come until the exhausted forests have had time to grow up again, it would appear advisable, if coal is to be used at all, that it should be used as soon as possible. As indicating the scarcity of first class wood-fuel, dry standing casuarina trees were recently sold at auction by the District Forest Officer, Bangalore, at the rate of about Rs. 14 per ton. The sale price of that wood, billeted and delivered in Bangalore, must necessarily be considerably higher if a profit is to be made on the transaction.

13. With reference to what precedes, and with the object of strengthening the hands of the Forest Department officials in face of the present great demand for engine and other fuel, the orders of Government on the following propositions appear desirable:—

(*a*) Wood-fuel from the casuarina plantations should only be provided under the conditions noted in para 5.

(*b*) The Closepet group of forests should be exploited in the manner noted in para 8, the essential condition being that not more than one-twentieth of each forest or of each "working-circle" should be cut over in any one year.

(*c*) In respect of other forests, the management should be conducted as far as possible so that not more than the average annual production of wood-fuel shall be cut or sold in any one year.

(*d*) Such engine wood-fuel as may be available under the foregoing conditions to be placed in the first instance at the disposal of the Public Works Department.

ORDER THEREON—Recorded. Government approve the suggestions of the Conservator as summarised in para 13 of his Note, and direct that they be carried into effect. The interests of the Government Distillery are important, and its demands should be given some priority as suggested in para 11.

OFFICE OF THE DEWAN OF MYSORE,
Dated Bangalore, 26th August 1901.

From

J. L. PIGOT, ESQ.,
Secy. to the Govt. of Mysore, Forest Dept.

To

C. L. S. RUSSELL, ESQ., I.C.S.,
First Asst. to the Resident in Mysore.

SIR,

I am desired to address you as follows with reference to correspondence ending with your letter No. 2001, dated the 18th April last, on the subject of water supplies in forests and grazing lands.

(2) With a view to the careful investigation of the subject, as desired by the Government of India, enquiries were instituted through the Revenue and Forest officials and the Officer in charge of the Amrut Mahal Department, in order to ascertain what forests or pasture lands of considerable extent exist to which the remarks in para 581 of the Report

of the Indian Famine Commission, 1898, can properly be held to apply, and what protective works for ensuring regular supplies of water in such forests or lands during seasons of drought ought to be undertaken, provided that they could be carried out at a reasonable cost. Fairly complete and detailed information upon the subject has been obtained. As observed by the Famine Commission, the question is a wide one and requires very careful consideration before definite action could be taken. Hence the delay in complying with the Honorable the Resident's request for full information on the subject.

(3) The pasture lands of the State may, for convenience, be treated under three classes. There are, first, the *gomals* or assigned village grazing grounds, nearly always in close proximity to the village sites. Next, a few large State Forests and many District Forests of the maidan tracts. Of the latter, some of the richest in pasturage and the most extensive are reserved primarily for the grazing of the Government cattle of the Amrut Mahal Department. Thirdly, the State Forests, situated for the greater part in the submontane or mountainous country of the Western Ghats and the District Forests of the malnad taluks.

(4) Of the foregoing lands, the great proportion of the assigned gomals need not be considered, as the water-supply for cattle is the supply for the village. In certain taluks of the malnad, however, very large tracts of forest have been assigned as gomal. But as there is nothing in practice to distinguish these tracts from District Forests of the malnad, they may be included in the third category above noted.

(5) The District Forests of the maidan taluks comprise most of the grazing resources of the State and are probably the tracts to which the remarks of the Famine Commissioners have most relevance. They are, however, for the greater part honey-combed, as it were, with villages. Cattle depastured in them are usually taken for watering to the tank or *katte* of their respective village, or occasionally to the larger or deeper tanks in the neighbourhood when the smaller ones are dry. In seasons of severe drought water is often secured by digging shallow wells in the beds of streams, and this practice is general, both inside and outside the forests, throughout the country. It is true that, in the larger District Forests, forming compact blocks and situate in hilly or broken country, the conditions as to water are not so favorable. The grazing *kavals* of the Amrut Mahal Department are often so situated; but even in or near to them water can usually be had. Were it otherwise, the lands would not have been specially selected for the support of, nor could they maintain in such high efficiency, the famous Amrut Mahal herds.

(6) The third class of grazing lands include the great State Forests as well as the District Forests situate on or under the Western Ghats and to the west and south of the Mysore district. The large State Forests of the Kankanhalli taluk of the Bangalore district may also be comprised in this category. It is to these forests that recourse is had for pasturage when supplies of water, and therefore usually of grass, fail in the more conveniently situated grazing grounds. The dense evergreen forests contain little or no pasturage, but the grass-covered uplands and the deciduous mixed forests along the entire belt of country, extending from the Kankanhalli taluk along the western border to the Shikarpur taluk, form true fodder reserves in seasons of scarcity in the maidan. The Honorable the Resident is aware how exceptionally circumstanced is this tract of country in the matter of water-supply generally, both as concerns the average annual rainfall, and the happy effect exerted by the fine and almost continuous forest growth upon the retention and gradual distribution of such rain as falls upon the ghats. Enquiry from the local officials has shown that the forests, whether State or District, included in this category, generally possess either a perennial stream, a tank or a nala, which is readily accessible to cattle grazing in them.

(7) I am to say that the detailed investigation which has been conducted at the instance of the Honorable the Resident has served to show that, as had indeed been anticipated by the Durbar, the existing sources of water-supply in connection with the pasturage of cattle are generally sufficient throughout the Province to meet all requirements, and that it would be inexpedient to undertake, unless in isolated and rare instances, works of the kind adverted to in this correspondence. A perusal of para 581 of the Famine Commissioner's report clearly indicates that the remarks therein contained were not intended to apply equally to all districts; and that considerations to which great importance must attach in other parts of India are of relatively little weight in a country so exceptionally favored by nature, and by the protective works carried out during the past and preceding centuries, as is the Mysore plateau. The presence on the west of the ghats, which to some extent determine the rainfall, of the forests near the ghats and of the system of tanks which conduce to the economical distribution and consumption of such rain as falls, bears in a remarkable degree on the present question. As stated by the Deputy Commissioner of Bangalore, it is doubtful "whether there is any scope for constructing new reservoirs in this Province. In every likely place, where facilities exist for storing water, tanks have been already built, and this tank system has become a special feature in Mysore. We have 38,080 tanks and, as remarked by Mr. Rice in his Gazetteer, it would now require some ingenuity to discover a site suitable for a new reservoir without interfering with the supply of those already in existence." Moreover, as remarked by the Deputy Commissioner of Tumkur, the fodder resources of the forests in localities affected by drought are liable to suffer from the absence of rain to the same extent as other grazing lands; and water-supplies, with the exception of perennial streams or springs, will be similarly affected.

These observations appear to the Durbar to be especially true of the large District Forests of the plains. In many forests the remains of small tank bunds are found. Many of these tanks were abandoned consequent upon the depopulation of villages during the famine of 1878, and some of the bunds were subsequently breached in connection with larger irrigation works. There is a general consensus of opinion that to repair such tanks would not serve the purpose now in view. At the best, in ordinary seasons, they would (like the vast number of similar *kattes* now in existence) furnish a precarious and small supply during the hot weather. In times of scarcity, when the rainfall has been deficient, they would contain no water. A few larger tanks, more likely to ensure a permanent supply of water, might indeed be constructed. The construction of such reservoirs would not merely be very costly but would, in most cases, interfere with existing tanks and tank irrigation. Large tanks, which would not interfere with existing interests, might possibly be constructed in the forests of the malnad, where, however, water-supplies are usually abundant and where protective works of this nature could scarcely be justified.

(8) In these circumstances I am to suggest for the consideration of the Honorable the Resident that the circular letter of the Government of India which originated this correspondence has no special applicability to the Mysore State; and to say that the Durbar consider it both unnecessary and inexpedient to expend any considerable sum upon the construction of reservoirs for the watering of cattle. At the same time, the investigation which has been made will be productive of good. The attention of Revenue and Forest Officers has been prominently directed to the questions at issue, and information has been received which may lead to the repair or construction at a moderate cost, of a few tanks where, to quote the Famine Commissioners, "it can be shown with tolerable certainty that their presence will be serviceable" for the purpose in view. Advantage will also be taken of the investigation ordered in Government Order No. 484-93—R. 191, dated 16th July 1901, in connection with irrigation works, to extend the enquiry of the Special Officer to sources of water-supply also. A copy of this order is herewith sent for the information of the Honorable the Resident.

(9) In conclusion I am to say, with reference to para 2 of Mr. Sreenivasiengar's letter of the 23rd July last, No. 681, that the estimate of three lakhs of rupees for improving the water resources in the Amrut Mahal kavals was prepared by the Superintendent of the Amrut Mahal Department. The Public Works Department has since reported, through the Military Assistant, that there appears to be no hope of obtaining catchments sufficient for works of this description.

I have the honor to be,
Sir,
Your most obedient servant,

MUZRAI

Proceedings of the Government of Mysore.

READ—

Petition Registered No. 1155, dated 13th April 1901, from Narasimha Bhubalacharya of the Anegondi Matt in the Maddagiri taluk, praying that a Rahadari may be granted to him to enable him to tour in the Province.

AND—

Letter No. 1222, dated 24th June 1901, from the Deputy Commissioner, Tumkur district, reporting on the above.

No. 282-9—MUZ. F. 8-97, DATED BANGALORE, 22ND AUGUST 1901.

ORDER THEREON—In his letter read above, the Deputy Commissioner reports that the applicant is the Guru of the Panchala community, with Ganjalagunte in the Maddagiri taluk as his head-quarters; that the residents of the place have given a mahazar to the effect that a Rahadari may be given to the Guru permitting him to tour in the Province, with the arms, &c., mentioned by him in conformity with the local *mamul*, excepting the use of palanquin; that the Guru has, also in his statement, agreed to conform to the local usage and custom of any place he would visit in his touring, and that in 1886, a license under the Arms Regulation was issued to him to keep four guns and two swords while touring; and recommends that a *Permit*, instead of a formal *Rahadari*, may be granted to him, with the distinct proviso that he is not to pass through any prohibited locality or make use of his palanquin or beat the drum in such localities.

2. Government observe that a Rahadari such as the one now applied for is out of date and is not now wanted. Subject to usage and without infringing the rights and privileges of others, every one has a right to go unmolested anywhere he pleases. The possession of arms is regulated by the Arms Act and the Rules thereunder. The attention to which such heads of communities would be entitled, must more or less depend upon the prestige which they maintain and the reverence they command. The difference between a *Rahadari* and a *Permit*, which the Deputy Commissioner tries to make out, is not understood. The utility of a Rahadari in the present condition of things is not apparent, and in these circumstances, the applicant will be informed that it is inexpedient to grant one.

Correspondence ending with letter No. 73, dated 13th July 1901, from the Deputy Commissioner, Kadur district, soliciting sanction to an annual allotment of Rs. 100 towards expenses of the car-festival of Sri Sakuni Ranganathaswami at Sakrepatna in the Kadur taluk.

No. 303-11—MUZ. F. 33-93, DATED BANGALORE, 24TH AUGUST 1901.

ORDER THEREON—From the correspondence it is observed that out of the annual interest of Rs. 146-13-4 realized on the investment of the temple's savings in Railway Debentures and Government of India Pro-notes, amounting to Rs. 3,036-12-4, an expenditure of Rs. 100 was hitherto being incurred every year,

without the previous sanction of Government, on account of the celebration of the car-festival of Sri Sakuni Ranganathaswami at Sakrepatna. The Deputy Commissioner now solicits formal sanction to the said annual allotment of Rs. 100 towards the expenditure in connection with the car-festival, to be met from the source above mentioned, and submits a bill for Rs. 100 expended on that account this year.

2. It was irregular on the part of the local authorities to have incurred the expenditure in question for many years past, without previous sanction. The expenditure already incurred is, however, now sanctioned and the bill for Rs. 100, for the charges of the car-festival of this year, is passed and forwarded to the Comptroller for audit.

3. The list of expenditure received from the Deputy Commissioner shows that Rs. 65 odd is put down for the purchase of the necessary articles of provisions, &c., required for *Agama* ceremonies, and Rs. 34 odd towards the feeding expenses. The Government consider that the expenditure on the car-festival should in future be limited to Rs. 65, the feeding on such occasions being left to devotees and others.

Deputy Secretary.

The Comptroller to the Government of Mysore, with the sanctioned bill.
The Deputy Commissioners of other Districts, for information.

Government Proceedings No. 7699-701—R. 2678, dated 27th March 1901, confirming certain lands measuring 1,747 acres and 17 guntas and assessed at Rs. 643-8-0, as Jodi Inam to the temple of Sri Jattangi Rameswara Devaru at Ramasagar village in the Molakalmuru taluk.

AND—

The following letter No. 1058, dated 20th June 1901, from the Deputy Commissioner, Chitaldrug district, soliciting sanction to the entertainment of an establishment costing Rs. 227 per annum for the regular performance of worship, &c., in the temple :—

"With reference to Government Proceedings No. 7699-701—R. 2678, dated 27th March 1901, restoring certain lands measuring 1,747 acres and 17 guntas as Jodi Inam to the temple of Jattangi Rameswara Devaru at Ramasagar in the Molakalmuru taluk, I have the honor to state that Rs. 362-13-6 were realized this year out of the jodi lands restored as detailed below :—

	Rs.	a.	p.	
	302	4	0	Assessment on the lands (688 acres and 31 guntas in extent) brought under cultivation.
	36	5	6	Halbanni.
	1	1	4	Amarai.
	1	10	0	Malike.
	21	3	8	Local cess.
	0	5	0	Irrigation cess.
Total ...	362	13	6	

(2) Out of the amount thus realized the amount payable to Government is Rs. 114-8-6, including jodi and local and irrigation cesses, leaving a balance of Rs. 248-5-0 at the credit of the temple.

(3) The Amildar of Molakalmuru in his report No. 534, dated 2nd June 1901, proposes that an establishment costing Rs. 227 is necessary for the regular performance of the worship, &c., in the temple as detailed below :—

Rs.	
72	Amount to be paid annually to the pujaris employed for temple service, at the rate of Rs. 6 per mensem. This amount includes daily Naivedium allowance. The pujaris have also agreed to permit Brahmins to worship Jattangi Rameswara on important festive occasions and to the daily worship by the Brahmins of Suryanarayana Devaru, Kesava Devaru and Gopalkrishna Devaru that are in the temple.
48	Pay of sweeper at the rate of Rs. 4 per month and allowance for holding torch when the gods are taken out in procession.
15	For Nandadipam at the rate of Rs. 1-4-0 per month.
36	Bhajantri (buglers) at the rate of Rs. 3 per month.
10	Expenses during Sravana Masa.
10	Ditto Kartika.
6	Ditto Sivaratri.
20	Car-festival expenses.
10	Navaratri expenses.
Total ... 227	

After deducting Rs. 227 for establishment charges, there remains Rs. 21-5-0 at the credit of the temple, which will be utilized for petty repairs, &c.

(4) The Amildar recommends the appointment of the following five gentlemen as Dharmadarsis of the temple :—

(1) Shanbhog Sanna Thammappa of Ramasagar.
(2) Patel Basave Gauda of Ramasagar.
(3) Bailaiya, Land-holder of Ramasagar.
(4) Giddiah, ditto.
(5) Channabasappa, ditto.

(5) The entertainment of the proposed establishment seems necessary for the proper performance of service in the said temple. I request that early sanction may be accorded to their entertainment and the appointment of Dharmadarsis for the supervision of the institution."

No. 320—Muz. F. 23-98, dated Bangalore, 26th August 1901.

Order thereon—The scale of establishment and other charges, amounting to Rs. 227 per annum, is sanctioned as a tentative measure for two years, after which a report will be submitted by the Deputy Commissioner to Government in the Muzrai Department. The scale of expenditure is somewhat liberal leaving a very small balance, *viz.*, Rs. 21-5-0, for other recurring expenditure such as repairs, &c.

But the Government trust that this balance may increase as cultivation of the jodi lands attached to the institution expands, and the contributions from the devotees interested in the welfare of the institution, come in more liberally.

2. A Notification will be issued appointing the persons recommended by the Deputy Commissioner, as Dharmadarsis to supervise the affairs of the temple.

Deputy Secretary.
